A beautiful retelling of the first Easter taken from 99 Stories from the Bible (nominated for Best Children's Book of the Year 2014 at CRT). Ideal for sharing with young readers, at home, school, or Sunday school as you remember the events of the Jesus' death and resurrection each year.

Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

This book contributes an important aesthetic perspective to the understanding of an area that has long fascinated anthropologists and others. It is part of a broadly emerging review of the colonial era in the Congo. The writers in this volume come together to discuss Anne Eisner s life, collecting of African objects, her art and writing about Epulu and the people who lived there."--BOOK JACKET.

A dedicated veterinarian treats a room full of ailing animals, including a crocodile and an elephant, before receiving a cunning wolf who proves to be trickier than expected, in a whimsical story told through comic-style illustrations.

Purpureae vestes estudia un element fonamental en la vida de qualsevol societat antiga com és el vestit i els colors utilitzats per a la seua ornamentació, especialment la púrpura. El luxe en el vestir implicava l'ús de materials com l'or per a la confecció de certs complements. Amb uns antecedents clarament orientals de recerca de la magnificència externa de reis i d'altres dignataris, el simbolisme del color en l'ornamentació personal va constituir, a les ciutats riberenques de la Mediterrània, un factor important de distinció social. Bé fossen de procedència vegetal, mineral o animal, els tints van donar sempre l'«ànima» als tèxtils. Per això, el poder imperial romà, en alguns períodes de la seua història, va controlar amb normes legals de major o menor duresa l'ús de determinats colors obtinguts a partir de gasteròpodes marins. L'obra tracta extensament els aspectes econòmics i tècnics relacionats amb l'elaboració i comercialització de vestits i teles per a altres usos (veles, adorns de la llar, etc.). A partir de diversos punts de vista, entre els que s'inclouen les dades arqueològiques o les referències etnograficocomparatives, s'hi incideix en les etapes de preparació de les fibres tèxtils, en les formes d'elaboració dels teixits més complexos a través de la reconstrucció experimental, en el treball dels pescadors i manufacturers que elaboraven en tallers costaners el tint més valorat, la púrpura, o en els qui treballaven en els tallers de la ciutat, així com en l'anàlisi i descripció detallada dels resultats extrets de les restes tèxtils aparegudes en jaciments, de l'Egipte romà sobretot, que ens mostren encara avui la riquesa i vivor dels seus colors.
