Since 1997 Luciano Giubbilei has been creating serenely beautiful gardens in locations on three continents. Giubbilei is known for the understated elegance of his designs, but is constantly evolving his style and approach, both in response to individual clients and as his ideas develop. His work draws on his Italian heritage, especially the Renaissance gardens of the Villa Gamberaia in Tuscany, and a distinctively classical combination of restraint and opulent materials. This book - now published in paperback for the first time - explores 12 significant gardens from Giubbilei's portfolio, including the garden that won him a gold medal at the world-famous Royal Horticultural Society's Chelsea Flower Show in 2009. The locations vary from private residences in London and Barcelona to corporate headquarters in

Geneva and a holiday home in Morocco. Each project is fully documented, from the preparation of mood boards and initial sketches to final planting and finishing. As Tom Stuart-Smith notes in his foreword, Giubbilei's gardens are characterized by their 'quiet aura of calm and poise' and their 'restful confidence' 'The gardens are like the man, impeccably turned out, suave and urbane in a gentle way, quietly assertive but never bossy. Sophisticated and thoroughly Italian. ... [His style] provides a form of instant theatre, where the designer forges places, conjures atmosphere and creates spaces out of nothing. This is great art.' Separate sections on the design process, site development, nursery production and the sourcing of plants, as well as on the artists and craftsmen with whom Giubbilei collaborates, offer a fascinating insight into his working methods and sources of inspiration. Accessibly written by a leading garden professional and fully illustrated with planting plans, behind-the-scenes images and atmospheric photographs by Steven Wooster, this beautiful book is the definitive work on the gardens of an acclaimed designer.

Inside this manual you will find routine maintenance, tune-up procedures, engine repair, cooling and heating, air conditioning, fuel and exhaust, emissions control, ignition, brakes, suspension and steering, electrical systems, and wiring diagrams.
