Word Problem

The sum of the first n whole numbers is given by the expression $\frac{1}{2}n(n + 1)$. Expand the equation by multiplying, then find the sum of the first 12 whole numbers. $n = 12$; $\frac{1}{2}(12)(12 + 1) = 78$.

What are 'Word Problems' in Maths?

Read Book 8 2

Word Problem

A word problem is a mathematical activity where background information about the problem is presented in text form rather than in figures alone.

A sentence or two sets out the question that needs solving with some calculations. There are many ways children can solve
