For those contemplating religious choices, Unitarian Universalism offers an appealing alternative to religious denominations that stress theological creeds over individual conviction and belief. In this new edition of the classic introductory text on Unitarian Universalism, which includes a revealing, entertaining foreword by best-selling author Robert Fulghum (All I Really Need to Know I Learned in Kindergarten, It Was on Fire When I Lay Down on It), a new preface by UU moderator Denise Davidoff, and two new chapters by the authors, John Buehrens and Forrest Church explore the many sources of the living tradition of their chosen faith.

This six-session program for individuals and groups explores Our chosen faith: an introduction to Unitarian Universalism by John A. Buehrens and F. Forrester Church.

A dramatic retelling of the story of the Transcendentalists, revealing them not as isolated authors but as a community of social activists who shaped progressive American values. Conflagration illuminates the connections between key members of the Transcendentalist circle—including James Freeman Clarke, Elizabeth Peabody, Caroline Healey Dall, Elizabeth Stanton, Thomas Wentworth Higginson, Theodore Parker, and Margaret Fuller—who created a community dedicated to radical social activism. These authors and activists laid the

groundwork for democratic and progressive religion in America. In the tumultuous decades before and immediately after the Civil War, the Transcendentalists changed nineteenth-century America, leading what Theodore Parker called “ a Second American Revolution. ” They instigated lasting change in American society, not only through their literary achievements but also through their activism: transcendentalists fought for the abolition of slavery, democratically governed churches, equal rights for women, and against the dehumanizing effects of brutal economic competition and growing social inequality. The Transcendentalists ’ passion for social equality stemmed from their belief in spiritual friendship—transcending differences in social situation, gender, class, theology, and race. Together, their fight for justice changed the American sociopolitical landscape. They understood that none of us can ever fulfill our own moral and spiritual potential unless we care about the full spiritual and moral flourishing of others.

This book takes a look at the faith, philosophy, and way of life of the country's one remaining Shaker community. Lauber explores their spiritual and daily lives by weaving together proprietary Shaker quotations, interviews, and photographs. The result is a book that pierces many misconceptions, most notably that the Shakers and their faith are dead. Lauber places the topics of faith, community, work, and worship in the context of Shaker history and contemporary developments on the American landscape.

In this brief and winsome book, Michael Reeves presents an introduction to the Christian faith that is rooted in the triune God. He takes cues from preachers and teachers down through the ages, setting key doctrines of creation, the person and work of Christ, and life in the Spirit into a simple framework of the Christian life.

This book lays out the basic characteristics of liberal theology, delving into historical and philosophical sources as well as social and intellectual roots. Ideal for readers who want a better understanding of liberal theology, a religious tradition that is rooted not in authority but in one's own experience and conscience.

The senior minister of a large metropolitan church shares his reflections on faith, especially addressing those who are not traditionally religious. With simple poignancy, Kanter says that we can understand faith to be less about what we believe in, and more about how we live and the choices we make. He considers what living faithfully could mean for the unorthodox among us, using four areas of focus—belief, trust, loyalty, and worldview. With lively and engaging stories to illustrate ideas—and reflection questions after each chapter—this small book of wisdom helps to make faith more accessible for the increasing number of the “ spiritual but not religious. ”

A thoughtful, warm, and witty introduction *Understanding the Bible* is designed to help empower skeptics, seekers, nonbelievers, and those of a liberal and progressive outlook to reclaim the Bible from literalists. In making accessible some of the best contemporary historical, literary, political, and feminist readings of the Hebrew and Christian scriptures, it encourages all who would find in the biblical heritage an ally and not an enemy in the quest for a more just and humane world. Brief and to the point, it can easily be used to stimulate group discussions and personal reading of the biblical texts themselves, and is an excellent introduction to the Judeo-Christian tradition for those of other faiths. *Understanding the Bible* includes four preliminary chapters on the why, who, which, and how of biblical understanding, followed by eight brief thematic chapters covering the core of the Hebrew Bible and six covering the Christian scriptures, plus chronologies, maps, and helpful
