United States Academic Decathlon - Academic Decathlon
Like an athletic decathlon, the Academic Decathlon has ten events: art, economics, essay, interview, language and literature, math, music, science, social science, and speech. Prior to 2013, the Super Quiz replaced one of the seven objective events each year; from 2003–2012, it alternated between replacing science and social science. [26]

Chronicles the voyages of a ship run by the ruthless Wolf Larsen, among the greatest of London's characters, and spokesman for an extreme individualism London intended to critique.

A thrilling, critically-acclaimed account of the Cold War spies and spycraft that changed the course of history, perfect for readers of Bomb and The Boys Who Challenged Hitler. The Cold War spanned five decades as America and the USSR engaged in a battle of ideologies with global ramifications. Over the course of the war, with the threat of mutually assured nuclear destruction looming, billions of dollars and tens of thousands of lives were devoted to the art and practice of spying, ensuring that the world would never be the same. Rife with intrigue and filled with fascinating historical figures whose actions shine light on both the past and present, this timely work of narrative nonfiction explores the turbulence of the Cold War through the lens of the men and women who waged it behind closed doors, and helps explain the role secret and clandestine operations have played in America's history and its national security.

This book is a realistic guide that can help the high school teacher and community. It includes ways to maintain one's health, how to balance one's personal and school life, and how to interact in a better, successful manner.

A deeply moving and insightful collection of personal essays from #1 bestselling author John Green. The Anthropocene is the current geologic age, in which humans have profoundly reshaped the planet and its biodiversity. In this remarkable symphony of essays adapted and expanded from his groundbreaking podcast, bestselling author John Green reviews different facets of the human-centered planet on a five-star scale—from the QWERTY keyboard and sunsets to Canada geese and Penguins of Madagascar. Funny, complex, and rich with detail, the reviews chart the contradictions of contemporary humanity. As a species, we are both far too powerful and not nearly powerful enough, a paradox that came into sharp focus as we faced a global pandemic that both separated us and bound us together. John Green's gift for storytelling shines throughout this masterful collection. The Anthropocene Reviewed is a open-hearted exploration of the paths we forge and an unironic celebration of falling in love with the world.

From the winner of the Nobel Prize for Literature, Doris Lessing, a distinctive science fiction short story.

From "one of the nation's foremost Chicano literary artists" comes a coming-of-age classic and the bestselling Chicano novel of all time that follows a young boy as he questions his faith and beliefs -- now one of PBS's "100 Great American Reads" (Denver Post). Antonio Marez is six years old when Ultima comes to stay with his family in New Mexico. She is a curandera, one who cures with herbs and magic. Under her wise wing, Tony will probe the family ties that bind and rend him, and he will discover himself in the magical secrets of the pagan past—a mythic legacy as palpable as the Catholicism of Latin America. And at each life turn there is Ultima, who delivered Tony into the world... and will nurture the birth of his soul.

This handbook covers 170 competitions, criteria for selecting events that match students' strengths/weaknesses, strategies for maximizing the benefits of competitions, and ways to avoid potential problems.

A first-person narrative of Olaudah Equiano's journey from his native Africa to the New World, that follows his capture, introduction to Christianity and eventual release. His story is an eye-opening depiction of personal resilience in the face of structural oppression. Olaudah Equiano's origins are rooted in West Africa's Eboe district, which is modern-day Nigeria. He details the shocking events that led up to his kidnapping and subsequent trade into slavery. His journey starts at 11 years old, forcing him to come of age in a society that abuses him at every turn. During his plight, he attempts to find new ways to survive, educating himself and eventually formulating a plan to obtain his freedom. In The Interesting Narrative of the Life of Olaudah Equiano, the author illustrates the harsh realities of slavery. Upon its release, the book was well-received and translated into multiple languages including German and Dutch. It set the precedent for many first-person narratives that would highlight their own unfathomable experiences. With an eye-catching new cover, and professionally typeset manuscript, this edition of The Interesting Narrative of the Life of Olaudah Equiano is both modern and readable.

Vols. for 2010- by Shannon Grey, Pauline Alexander-Travis, David Bell.

Colleges Worth Your Money: A Guide to What America's Top Schools Can Do for You is an invaluable guide for students making the crucial decision of where to attend college when our thinking about higher education is radically changing. At a time when costs are soaring and competition for admission is higher than ever, the college-bound need to know how prospective schools will benefit them both as students and after graduation. Colleges Worth Your Money provides the most up-to-date, accurate, and comprehensive information for gauging the ROI of America's top schools, including: In-depth profiles of 175 of the top colleges and universities across the U.S.; Over 75 key statistics about each school that cover unique admissions-related data points such as gender-specific acceptance rates, early decision acceptance rates, and five-year admissions trends at each college. The solid facts on career outcomes, including the school's connections with recruiters, the rate of employment post-graduation, where students land internships, the companies most likely to hire students from a particular school, and much more. Data and commentary on each college's merit and need-based aid awards, average student debt, and starting salary outcomes. Top Colleges for America's Top Majors lists highlighting schools that have the best programs in 40+ disciplines. Lists of the "Top Feeder" undergraduate colleges into medical school, law school, tech, journalism, Wall Street, engineering, and more.
