ACI 318-11 was adopted as a standard of the American Concrete Institute May 24, 2011, to supersede ACI 318-08 in accordance with the Institute's standardization procedure and was published August 2011. A complete metric companion to ACI 318 has been developed, 318M; metric equivalents are provided only in Appendix F of this document.

318-11 Building Code Requirements for Structural Concrete ...

Accelerated curing is any method by which high early age strength is achieved in concrete.These techniques are especially useful in the prefabrication industry, wherein high early age strength enables the removal of the formwork within 24 hours, thereby reducing the cycle time, resulting in cost-saving benefits. The most commonly adopted curing techniques are steam curing at atmospheric ...
