The American College of Sports Medicine (ACSM) is no longer creating its own exercise guidelines. Instead, it points to the Physical Activity Guidelines for Americans from the U.S. Department of ...

ACSM Guidelines Are No More: America's New Fitness Memo

ACSM files are not eBook files in the regular sense; they can't be opened and read like other eBook formats, like an EPUB or PDF. In fact, the ACSM file itself is nothing but information that communicates with Adobe's servers. There isn't an eBook "locked inside" the ACSM file nor is there a way to extract the book from the ACSM file.

What Is an ACSM File? (And How to Open One)

ACSM's Guidelines for Exercise Testing and Prescription ...

The guidelines presented for older adults are nearly identical. ACSM/AHA define the older adult as men and women over the age of 65 and includes those adults over age 50 with . clinically significant chronic conditions and/or functional limitations. The older adult's recommendations for aerobic exercise define moderate and vigorous activity based on perceived exertion in addition to METs ...

ACSM Updates Physical Activity Recommendations

Consistent with the 2008 Physical Activity Guidelines for Americans, ACSM's overall recommendation is for most adults to engage in at least 150 minutes of moderate-intensity exercise each week. "The scientific evidence we reviewed is indisputable," says Carol Ewing Garber, chair of the writing committee and an associate professor of movement sciences at the Teachers College of Columbia University.
