Active Learning. Just as chemistry is an experimental science – so too is education. Each year we learn more and more about best ways in which to help students learn and engage with the material. Therefore, you will notice that our courses and the ways in which we teach continue to evolve as well.

Active Learning | Department of Chemistry

Active Review Sessions – In the traditional class review session the students ask questions and the instructor answers them. Students spend their time copying down answers rather than thinking about the material. In an active review session the instructor poses questions and the students work on them in groups.
