What imaginative literature brings to the study of the Holocaust is an ability to test the limits of language and its conventions. "After Representation?" moves beyond the suspicion of representation and explores the changing meaning of the Holocaust for different generations, audiences, and contexts.

### After Representation? by Spargo, R. Clifton (ebook)

The Holocaust has been a common subject in American literature, with authors ranging from Saul Bellow to Sylvia Plath addressing it in their works. The title character of American author William Styron 's novel Sophie's Choice (1979), is a former inmate of Auschwitz who tells the story of her Holocaust experie to the narrator over the course of the novel.

After Representation? explores one of the major issues in Holocaust studiesthe intersection of memory and ethics in artistic expression, particularly within literature. As experts in the study of literature and culture, the scholars in this collection examine the shifting cultural contexts for Holocaust representation and reveal how writerswhether they write as witnesses to the Holocaust or at an imaginative distance from the Nazi genocidearticulate the shadowy borderline between fact and fiction, between event and expression, and between the condition of life endured in atrocity and the hope of a meaningful existence. What imaginative literature brings to the study of the Holocaust is an ability to test the limits of language and its conventions. After Representation? moves beyond the suspicion of representation and explores the changing meaning of the Holocaust for different generations, audiences, and contexts.

"After Representation? explores one of the major issues in Holocaust studies - the intersection of culture and memory in artistic expression, particularly within literature. What imaginative literature brings to the study of the Holocaust is an ability to test the limits of language and its conventions. After Representation? explores the changing meaning of the Holocaust for different generations, audiences, and contexts." --Book Jacket.

The Palgrave Handbook of Holocaust Literature and Culture reflects current approaches to Holocaust literature that open up future thinking on Holocaust representation. The chapters consider diverse generational perspectivessurvivor writing, second and third generationand genresmemoirs, poetry, novels, graphic narratives, films, video-testimonies, and other forms of literary and cultural expression. In turn, these perspectives create interactions among generations, genres, temporalities, and cultural contexts. The volume also participates in the ongoing project of responding to and talking through moments of rupture and incomplection that represent an opportunity to contribute to the making of meaning through the continuation of narratives of the past. As such, the chapters in this volume pose options for reading Holocaust texts, offering openings for further discussion and exploration. The inquiring body of interpretive scholarship responding to the Shoah becomes itself a story, a narrative that materially extends our inquiry into that history.

The Bloomsbury Companion to Holocaust Literature is a comprehensive reference resource including a wealth of critical material on a diverse range of topics within the literary study of Holocaust writing. At its centre is a series of specially commissioned essays by leading scholars within the field: these address genre-specific issues such as the question of biographical and historical truth in Holocaust testimony, as well as broader topics including the politics of Holocaust representation and the validity of comparative approaches to the Holocaust in literature and criticism. The volume includes a substantial section detailing new and emergent trends within the literary study of the Holocaust, a concise glossary of major critical terminology, and an annotated bibliography of relevant research material. Featuring original essays by: Victoria Aarons, Jenni Adams, Michael Bernard-Donals, Matthew Boswell, Stef Craps, Richard Crownshaw, Brett Ashley Kaplan and Fernando Herrero-Matoses, Adrienne Kertzer, Erin McGlothlin, David Miller, and Sue Vice.

Since Theodor Adorno's attack on the writing of poetry "after Auschwitz," artists and theorists have faced the problem of reconciling the moral enormity of the Nazi genocide with the artist's search for creative freedom. In Holocaust Representation, Berel Lang addresses the relation between ethics and art in the context of contemporary discussions of the Holocaust. Are certain aesthetic means or genres "out of bounds" for the Holocaust? To what extent should artists be constrained by the "actuality" of historyand is the Holocaust unique in raising these problems of representation? The dynamics between artistic form and content generally hold even more intensely, Lang argues, when art's subject has the moral weight of an event like the Holocaust. As authors reach beyond the standard conventions for more adequate means of representation, Holocaust writings frequently display a blurring of genres. The same impulse manifests itself in repeated claims of historical as well as artistic authenticity. Informing Lang's discussion are the recent conflicts about the truth-status of Benjamin Wilkomirski's "memoir" Fragments and the comic fantasy of Roberto Benigni's film Life Is Beautiful. Lang views Holocaust representation as limited by a combination of ethical and historical constraints. As art that violates such constraints often lapses into sentimentality or melodrama, clich  or kitsch, this becomes all the more objectionable when its subject is moral enormity. At an extreme, all Holocaust representation must face the test of whether its referent would not be more authentically expressed by silencethat is, by the absence of representation.

In the late 1980s, Holocaust literature emerged as a provocative, but poorly defined, scholarly field. The essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of Holocaust literature to include comic books, fiction, film, and poetry, as well as the more traditional diaries, memoirs, and journals. Ten contributors from four countries engage issues of authenticity, evangelicalism, morality, representation, personal experience, and wish-fulfillment in Holocaust literature, which have been the subject of controversies in the US, Europe, and the Middle East. Of interest to students and instructors of antisemitism, national and comparative literatures, theater, film, history, literary criticism, religion, and Holocaust studies, this book also contains an extensive bibliography with references in over twenty languages which seeks to inspire further research in an international context.

Deepens and enriches our understanding of the Jewish literary tradition and the implications of the Shoah. Challenging the notion that Jewish American and Holocaust literature have exhausted their limits, this volume reexamines these closely linked traditions in light of recent postmodern theory. Composed against the tumultuous background of great cultural transition and unprecedented state-sponsored systematic murder, Jewish American and Holocaust literature both address the concerns of postmodern human existence in extremis. In addition to exploring how various mythic and literary themes are deconstructed in the lurid light of Auschwitz, this book provides critical reassessments of Saul Bellow, Bernard Malamud, and Philip Roth, as well as contemporary Jewish American writers who are extending this vibrant tradition into the new millennium. These essays deepen and enrich our understanding of the Jewish literary tradition and the implications of the Shoah.

The representation of the Holocaust in literature and film has confronted lecturers and students with some challenging questions. Does this unique and disturbing subject demand alternative pedagogic strategies? What is the role of ethics in the classroom encounter with the Holocaust? Scholars address these and other questions in this collection.

In this provocative work, Alvin H. Rosenfeld contends that the proliferation of books, films, television programs, museums, and public commemorations related to the Holocaust has, perversely, brought about a diminution of its meaning and a denigration of its memory. Investigating a wide range of events and cultural phenomena, such as Ronald Reagan's 1985 visit to the German cemetery at Bitburg, the distortions of Anne Frank's story, and the ways in which the Holocaust has been depicted by such artists and filmmakers as Judy Chicago and Steven Spielberg, Rosenfeld charts the cultural forces that have minimized the Holocaust in popular perceptions. He contrasts these with sobering representations by Holocaust witnesses such as Jean Améry, Primo Levi, Elie Wiesel, and Imre Kertész. The book concludes with a powerful warning about the possible consequences of "the end of the Holocaust" in public consciousness.

This text presents a critical survey of a broad range of fictional representations of the Holocaust published over the last 20 years.
