Agonistics Thinking The World Politically  
Abandoning the illusory hope for a political unification of the world, we should advocate the establishment of a multipolar world. Such a world order could be called ‘agonistic’ in the sense that it would acknowledge a plurality of regional poles, organized according to different economic and political models” (pp 23-24).

Overview. Political conflict in our society is inevitable, and its results are often far from negative. How then should we deal with the intractable differences arising from complex modern culture? Developing her groundbreaking political philosophy of agonistics – the search for a radical and plural democracy – Chantal Mouffe examines international relations, strategies for radical politics, the future of Europe and the politics of artistic practices.

She shows that in many circumstances where no alternatives seem possible, agonistics offers a new road map for change. Engaging with cosmopolitanism, post-operatism, and theories of multiple modernities she argues in favor of a multipolar world with a real cultural and political pluralism.

Agonistics - Verso

Against these two possible forms of global hegemony – one actual, one hypothetical – Mouffe proposes a third approach: a “ pluralisation of hegemonies ” constituted by a multi-polar, agonistic world order (22). That is, a world political order constituted by “ a plurality of regional poles, organised according to different economic and political models and without a central authority ” (ibid).
