Becoming brilliant: What science tells us about raising ...
And, as two of the authors of this piece described in their book, *Becoming Brilliant: What Science Tells Us About Raising Successful Children*, play also prepares children to become social, caring, thinking, and creative citizens (Golinkoff & Hirsh-Pasek 2016). In fact, many researchers and teachers now concur that the "child-driven educational methods sometimes referred to as 'playful learning' are the most positive means yet known to help young children's development" (Lillard et ...

The Case of Brain Science and Guided Play: A Developing ...
Becoming Brilliant goes beyond complaining to offer solutions that parents can apply right now. Authors Roberta Michnick Golinkoff and Kathy Hirsh-Pasek provide a science-based framework for how we should be educating children in and outside school. Parents become agents of change for children's success when they nurture six critical skills.

Backed by the latest scientific evidence, this book introduces the "6Cs": collaboration, communication, content, critical thinking, creative innovation, and confidence, along with ways parents can nurture their children's development in each area.

Becoming Brilliant by Roberta Michnick Golinkoff, Kathy ...
The scientific consensus is clear. The world confronts an urgent carbon problem. The carbon in our atmosphere has created a blanket of gas that traps heat and is changing the world's climate. Already, the planet's temperature has risen by 1 degree centigrade. If we don't curb emissions, and temperatures continue to climb, science tells us...
