Cells are the basic units of organisms. In many organisms, cells are organised into tissuesand tissues into organs. Several organs often link into an organ system. Most cells are microscopic, and to understand the images of cells that are produced by microscopes you need to understand a bit about how microscopes work.

AS Biology (Instant Revision)

Resources for IGCSE Biology, based on Edexcel specification although they will fit with others too. If there are references to a textbook, it is the Pearson Edexcel one (green, with chameleons on the front). Question loops – there is a file in the Revision section which gives instructions on how to use these.
