The best Black Friday Bowflex deals won't break the bank but will give you options when you're working out at home. Bowflex are well known for their high quality equipment that will help you with all ...

Are you a hard worker? Are you tired of busting your butt and not having the size and strength to show for it? You can't reach your goals in the gym without a plan! Now you will never have to hit the gym without a set workout again! What you have in your hands is the ultimate blueprint to a bigger, stronger you! Now all your hours sweating and toiling away on the weight pile won't be in vain. Even the most seasoned gym veterans and highly skilled trainers have difficulty consistently coming up with fresh and effective workouts. But for those willing to put in the time (the lazy and uncommitted need not apply), the Size and Strength Blueprint is here to take your strength and physique game to the next level. In this book we show you exactly what to do to put on pounds of quality lean muscle mass, and strength levels to match, in a matter of weeks! These are not theory-based workouts. They have been tested and proven on world-class athletes from IFBB Pros Johnnie Jackson and Branch Warren, World Record Holder Jeremy Hoornstra, professional athletes, and some of the strongest men in the world. Josh and Noah Bryant have "been there and done that" and are full-time trainers whose clients make up the A-List of the weightlifting world. You can now use the secrets and methods of two of the world's best trainers in your own program. Imagine, in just a couple of months, being more confident, feeling better physically and mentally, and reaching goals you previously thought unattainable, all without living in the gym and doing hours of cannibalizing cardio! The Blueprint is going to be the greatest training investment you have ever made and is an absolute necessity for any serious strength athlete or personal trainer. If you have the work ethic, we have the plan!

Discover the freedom of the open road with Lonely Planet's Pacific Northwest's Best Trips. Featuring 32 amazing road trips, plus up-to-date advice on the destinations you'll visit along the way. Cruise the Pacific Coast, Willamette Valley and Cascade Mountains- all with your trusted travel companion.

Develop flexibility, balance, and strength for improved performance on the athletic field, in fitness class, and in daily life. Premier fitness instructor and author Jay Blahnik blends the best of yoga, Pilates, martial arts, and sport training to create stretching sequences that can be used for warm-up, cool-down, and challenging fitness workouts.

Explains how to use the popular home workout machine to create a lean, muscular body, using a bow-and-arrow principle of flexes, extensions, and strength exercises to create three complete programs--for out-of-shape athletes, women who need to target their hips and thighs, and individuals who want to work on their abdominal muscles. 30,000 first printing.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration?s three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

The American artist Terry Winters (b 1949), known for his sensuously abstract paintings and drawings, is also a distinguished printmaker. He has explored a wide range of printing methods and techniques, including intaglio, lithography, screenprinting, woodcut, and linoleum cut, and has worked at such notable print ateliers as Universal Limited Art Editions in West Islip, New York, and the Aldo Crommelynck studio in Paris. Winters's early works, sometimes described as organic abstraction, resonate with echoes of the natural world, while his more recent prints contain layered abstract fields that address how consciousness relates to visual form. This catalogue, accompanying a retrospective exhibition of Winters's prints, will consist of a short essay, a selected bibliography, and a checklist of approximately 90 works. The prints, all from the collection of the Metropolitan Museum, will be on display from 12th June to 30th September 2001.

The Beasts of Clawstone Castle is a fantastically spooky adventure from the author of Dial a Ghost, Eva Ibbotson. 'We need proper ghosts,' said Ned, 'really scary ones with heads that come off and daggers in their chests!' When Madlyn and her younger brother Rollo arrive at crumbling Clawstone Castle, they can see that emergency action is needed before Clawstone falls down completely. With the help of a team of homeless, scary ghosts -including a one-eyed skeleton and Brenda the Bloodstained Bride - they hatch a spooky plan to get the money rolling in. But with a sinister scientist on the loose, money might not be enough to save the mysterious beasts of Clawstone Castle . . .

"...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad - the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.
