Before choosing sheet metal or suspension components, a motorcycle builder must first make critical frame decisions. Whether the rider opts for hard-tail, soft-tail, or twin shock, the choice affects the bike's cost, appearance, and use. In his third and final book on building V-twin motorcycles, author Tim Remus discusses the pros and cons of various frame designs, the right frame for the reader's use and budget, and the best equipment for the type of frame chosen. Photos illustrate the latest offerings from the aftermarket and how builders are using and equipping the latest frame designs. Chapters address topics such as frame design and construction material, triple trees and fork tubes, shock absorbers, brake components, wheels and tires, and motorcycle electronics. Hands-on sections teach the reader about drive-train alignment, squaring the frame, and going from a bare frame to a rolling chassis with an installed engine.

Nové aktualizované vydání, doplněné o fotografie a popis nejmodernějších hasičských automobilů, pohledně zachycuje dějiny výroby hasičské techniky a vozidel od začátku dvacátého století do současnosti. V knize také naleznete seznam výrobců hasičských stříkaček a nadstavců, technické údaje automobilových podvozků používaných pro stavbu hasičských vozidel, životopisy významných konstruktérů a výrobců hasičské techniky, terminologický slovník a další zajímavosti.

This newly up-to-date edition of the best-selling DIY reference Small Engines and Outdoor Power Equipment offers them same great comprehensive and illustrated instruction but with new and improved content for today's motorized equipment.

(Fast Track Music Instruction). For electric or acoustic guitar - or both! Teaches music notation, tablature, full chords and power chords, riffs, licks, and scales, and rock and blues styles. Method Book 1 includes 73 songs and audio examples.

Toro Proline commercial walk-behind mowers (produced from 1990-2001) manual.
