Would you take off on a road trip to a new destination without a map or good directions? Probably not. Yet, sometimes business owners go full speed ahead without even having a destination in mind, much less a map on how to get there. That's why so many businesses never make it. In today's competitive marketplace, 3/4 of all new businesses fail within two to three years. Whether you're launching a new business or working to strengthen or expand an established one, a business plan is your road map to success. Business Plans For Dummies, 2nd Edition helps you keep your businesses on track and reach

your goals. Written by Paul Tiffany, PhD, professor at UC Berkley Haas Business School and the Wharton School of Business and Steven Peterson, PhD, Professor at UC Berkeley Haas Business School and CEO of Strategic Play, it helps you Realistically determine where your business is and where you want to go Create a detailed business plan and put it into action instead of in a drawer Use the plan to secure financing Prepare for opportunities avoid common pitfalls In short, Business Plans for Dummies helps you determine where you want your business to go and create a map for getting there. You'll discover how to: Identify and approach potential financial backers, including venture capital firms, angels, bankers, and others Clarify and crystallize your company's mission, vision, and values Analyze your industry and your competition Identify your customers, including their needs, habits, purchase triggers, and decision-making processes Objectively analyze your company's strengths and weaknesses Analyze your financial situation in order to do realistic forecasts and budgets Recognize trends and anticipate changes, both in the overall economy and in your industry Plan for growth, considering the product life cycle, new products, or new markets Structure your organization and nurture leadership Complete with diverse techniques and approaches plus a sample business plan, Business Plans For Dummies gives you detailed how-to for designing a dynamic, business plan that will keep you on course in spite of the inevitable curves and detours in today's marketplace. It's a plantastic resource for business owners and entrepreneurs.

Millions of Americans own their own businesses, and millions more dream of doing the same. But starting your own business is a pretty complicated matter, especially with all the legal issues and paperwork. This updated edition of the top-selling small business resource is chock-full of information, resources, and helpful hints on making the transition from a great idea to a great business. If you've got a great idea for your own business, you need the kind of straightforward advice you'll find here — the kind of advice you'd normally only get from business schools and MBA courses. Small Business Kit For Dummies, Second Edition covers all the basics on: Recent tax law changes Balancing your finances Hiring and keeping employees Effective management strategies Accounting fundamentals In addition to the basics of business, you'll also find top-class advice on more advanced business basics, like business plans, the ins and outs of contracts, and using the Internet to expand your business. For entrepreneurs large and small, this comprehensive resource offers authoritative guidance on all your biggest business concerns, and offers unbeatable advice on such topics as: Choosing your business structure — from LLCs to S corps How to develop and write a standard business proposal Going public, issuing stock, and keeping a stock ledger Raising capital and understanding securities laws Bookkeeping standard practices Tax basics for small businesses Handling the paperwork for new hires Designing employee compensation plans Working with independent contractors and consultants Patent and copyright protections Dealing with the Press In addition, the book includes a CD-ROM full of helpful resources — forms, contracts, and even sample versions of the most popular software for small businesses. With Small Business Kit For Dummies you'll find all the tools you need to get your small business up and running — and keep it running for years and years to come.

Think and act strategically every time In today's business environment, strategic planning stresses the importance of making decisions that will ensure an organization's ability to successfully respond to changes in the environment and plan for sustainable viability. Providing practical, field-tested techniques and a complete 6-phase plan, Strategic Planning Kit For Dummies shows you how to make strategy a habit for all organizations, no matter the size, type, or resource constraints. Strategic Planning Kit For Dummies is for companies of all types and sizes looking to build and sustain a competitive edge, set up an ongoing process for market assessment and trend analysis, and develop a vision for future growth. This revised edition includes: new and updated content on planning for both the short and the long-term; crucial information on succession planning; help preparing for the unexpected using scenario planning and agile strategy; strategies for implementing change and integrating strategic plans successfully by involving all staff members; and more. The supplementary CD lays out a

comprehensive, 6-phase, step-by-step program, complete with downloadable spreadsheets, charts, checklists, video links, and more Provides value for any business or entrepreneur looking to improve efficiency, focus, and competitive edge Includes practical, field-tested techniques Strategic Planning Kit For Dummies gives today's business owners and upper-level management the tools and information they need to think and act strategically in order to more effectively weather current economic storms while planning for future growth.

While Business Plans For Dummies covers the strategy of putting a business plan together, Business Plans Kit For Dummies covers how to put a business plan to work! This kit covers business plans for every stage (and every type) of business: e-business, sole proprietorships, small businesses, service companies, high-tech companies, non-profits -- even business plans for middle managers and restructuring a company. It emphasizes methods for obtaining funding and sources to tap for capital, and explains how to formulate business plans according to the planned business model -- bricks-and-mortar vs. e-business. It also includes updated terminology and jargon from the business planning and venture capital industries, and shows you how to gear specific plans for businesses in different phases of development (i.e., startup, expansion, etc.).

A Canadian bestseller, now revised and updated! Discover how to: Put together everything your business needs, from furniture to staff Establish an online presence for your business Write a winning business plan Keep your books balanced Stay on the right side of tax authorities An enterprising guide to becoming your own boss Hey entrepreneurs! Got an idea and need some straightforward advice on how to turn your dream into a reality? Let two experts show you how to turn your ideas into gold. Covering every aspect of starting, building, staffing, and running your own show, whether you're starting from the ground up or buying a franchise, this book paves the way to small business success. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

If you're a small business owner, managing the financial affairs of your business can seem like a daunting task—and it's one that far too many people muddle through rather than seek help. Now, there's a tool-packed guide designed to help you manage your finances and run your business successfully! Small Business Financial Management Kit For Dummies explains step by step how to handle all your financial affairs, from preparing financial statements and managing cash flow to streamlining the accounting process, requesting bank loans, increasing profits, and much more. The bonus CD-ROM features handy reproducible forms, checklists, and templates—from a monthly expense summary to a cash flow statement—and provides how-to guidance that removes the guesswork in using each tool. You'll discover how to: Plan a budget and forecast Streamline the accounting process Improve your profit and cash flow Make better decisions with a profit model Raise capital and request loans Invest company money wisely Keep your business solvent Choose your legal entity for income tax Avoid common management pitfalls Put a market value on your business Complete with ten rules for small business survival and a financial glossary, Small Business Financial Management Kit For Dummies is the fun and easy way® to get your finances in order, perk up your profits, and thrive long term! Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.
