This is a book about a book: it is an in-depth yet reader friendly analysis of the Book of Judges, one of the most dramatic books of the Bible. Against the commonly-held view that this remarkable work is no more than a collection of hero tales stemming from Israel's earliest days in its land—its “Heroic Age,” so to speak—this study makes the case that the Book of Judges is a unified composition with a single focused message: that it is the values held by a people and not its politics that determine its fate. Further, Judges contends that there is a direct connection between the kind of values people internalize and the level of violence that racks their society, both inflicted from without and generated from within. And not least, that the presence of violence is a symptom that a society has abandoned the moral values of monotheism for the Machiavellian politics of a pagan worldview that worships power as the ultimate reality. The larger-than-life heroes and heroines—Ehud and Jael, Deborah and Gideon, Jephthah and Samson—who people the pages of Judges serve by their example to illustrate the way this thesis works out in the world.

A world which, like ours, has been ravaged by some sixty wars in recent decades, can rightly be described as the scene of global disorder. Even today, the same world is traumatized by hot and cold wars, proxy wars, and repeated outbursts of blood-filled mayhem, not to mention the threat of a nuclear holocaust unleashed by big power rivalries. These are not mere statistics, but wounds in the body of humanity, calling for healing and reconciliation. In biblical terms, human beings are not meant to be the owners or the destroyers of the world, but rather its custodians or caretakers. This collection is a summons to responsible care-taking, and it approaches the subject from an intercultural perspective in a variety of fields, including religion and politics. The topics covered range from accounts of major global calamities today to explorations of possible political, economic and societal reforms, and to the invocation of basic religious and philosophical resources needed for the recovery of a world beyond global disorder.

The second installment in the Brotherhood of the Moon series finds the characters still trying to adjust to their new lives as Werewolves and what it means to leave everything they had known behind. Raziel is now distant from his new Pack as those that he thought were dead, reemerge into the storyline unexpectedly, whom he has not seen in centuries. Rekindling very old passions and memories! A new threat emerges from beyond the boundaries of what is known that is a threat to all Life!

"Identity would seem to be the garment with which one covers the nakedness of the self, in which case, it is best that the garment be loose, a little like the robes of the desert, through which one's nakedness can always be felt, and, sometimes, discerned." James Arthur Baldwin Cross cultural encounter between first and second generation Asian-American woman and their dilemma of cultural choice between assimilation into main body or safeguarding self culture as an outsider immigrant have always lured a large numbers of Asian-American writers. Although such literary work is still face the debate of whether it is a part of American literature or of outsiders. Maxine Hong Kingston a well known Chinese-American author who has written about the experiences of the Chinese immigrants living in America has shielded her American inheritance as a writer like, "Actually I think that my books are much more American than they are Chinese. I felt that I was building, creating myself and these people as American people... Even though they have strange Chinese memories, they are American people. Also, I am creating part of American literature, and I was aware of doing that, of adding to American literature." (Paula Rabinowitz, 1987)

Dark Moon is the story of Raziel, an ancient Werewolf that emerges from the shadows after centuries to help the surviving soldiers of a brutal alien attack the only way he can, by turning them! It is a Scifi suspense thriller about a time in the near future when creatures from ancient legends emerge from hiding to help the surviving humans fight sinister alien invaders who have begun a ground invasion of New York City and cut down all in their path with lethal energy weapons. The story centers heavily on Raziel, the last remaining Werewolf as he is forced to begin turning the human soldiers that fall in battle in order to save their lives and rekindles his kind after centuries of near extinction. The storyline follows his ancient mind back, to bittersweet memories of his distant youth more than a thousand years before, where he had met his counterpart and soulmate Lupea, a Pure Born Werewolf like himself that he had lost to the savagery of the Wars of the Moon. As he turns an elite squad of soldiers, one by one into newborn Werewolves, his memories of her are rekindled and he is forced to feel the loss of her all over again.

Neighbor Love through Fearful Days is a reflection on pandemics—the Covid-19 pandemic, the accompanying economic collapse, a summer of climate chaos, and the pandemic of white supremacy—as well as on the calling to “serve thy neighbor” and work toward the common good, even and especially in times of crisis. Mahn’s real-time reflections begin with an entry dated March 17, 2020, after the college where he teaches moved online and his family began sheltering in place; they end with an entry dated August 31, 2020, when the college reopened for an unprecedented fall term. Through the intervening entries, he reflects on perennial questions about purpose, faith, and vocation as they take on a newfound urgency as cities lock down, economies reopen and close again, and our fractured country teeters on the edge of civil war. Each entry grapples with the anxieties and opportunities, the suffering and sense of being summoned, that characterize that same period. Jason A. Mahn’s evocative narrative is a story about living through a time when the world as we know it is being leveled by pandemics—and it is also a deeply philosophical exploration of what it means to live well. In the pages of this book, Mahn invites readers to muse on the difficult balance between self-care and other-care, the role of love in social justice, and how white privilege might be atoned for, and how, amid intense suffering, to practice a faith that is not escapist, but embraces a hope more durable than optimism and a public, strategic love more fierce and enduring than previously imagined. Ultimately, these reflections acknowledge the immense challenge of living a purposeful life in the middle of crisis but invite readers to the shared hope that from the ashen stillness, we may just hear new callings to imagine healing, cultivate hope, and love neighbors in creative ways.

This book merges macro- and micro-level analysis of the Belt and Road Initiative (BRI) to dissect China’s aim in creating an integrated Eurasian continent through this single mega-project. BRI has been the source of much interest and confusion, as established frameworks of analysis seek to understand China’s intentions behind the policy. China’s international activity in the early 21st century has not yet been successfully theorised by IR scholars because of a failure to satisfactorily encompass its complexity. In addition, the mix-and-match syncretism of the Chinese approach to foreign policy has been under-emphasised or omitted in many analyses. Bringing together complexity thinking and analytic eclecticism to assess the degree to which this scheme can transform international relations, Garlick critically examines this large-scale interconnectivity project and its potential impacts. The book will be of interest to scholars and practitioners in the field of international relations and China studies including academics, policy-makers and diplomats around the world.
