course, ideal for all students studying English Language, whether on a course or for self-study. Broadly based on Hallidayan systemic-functional grammar but also drawing on cognitive linguistics and discourse analysis, English Grammar is accessible, avoiding overly theoretical or technical explanations. Divided into 12 self-contained chapters based around language functions, each chapter is divided into units of class-length material. Key features include: Numerous authentic texts from a wide range of sources, both spoken and written, which exemplify the grammatical description. Clear chapter and module summaries enable efficient class preparation and student revision. Extensive exercises with a comprehensive answer key. This new edition has been thoroughly updated with new texts, a more user-friendly layout, more American English examples and a companion website, providing extra tasks, a glossary and a teachers' guide. This is the essential coursebook and reference work for all native and non-native students of English grammar on English language and linguistics courses.
