Kind of Evil). In April 1997, pretty, 22-year-old Jacine Gielinski stopped her car at a red light in Colorado Springs, Colorado. She had no idea that the two young men looking at her from the car next to hers would in that moment decide she would be their target for unspeakable horrors. George Woldt and Lucas Salmon were an unlikely pair of best friends, much less killers. Woldt was a fast-talking, well-dressed ladies' man who boasted of his sexual conquests. Salmon was deeply religious and socially misfit, obsessed with losing his virginity. Woldt was the leader, Salmon his willing follower, but neither had been in serious trouble with the law. However, inspired by the cult movie, *A Clockwork Orange*, with its dystopian violence, they fantasized for months what it would be like to abduct, rape, torture and murder a woman. Then, aroused by watching ultra-violent pornography, they decided to act upon their evil thoughts. Revised and updated with a new afterword from the author, *A Clockwork Murder* recounts the steps that led to an unthinkable crime and its impact on a community, as well as the friends and especially the parents of an innocent young woman who paid with her life for being in the wrong place at the wrong time. "Jackson's sharp eye misses nothing in the painstakingly rendered details."—Publishers Weekly

“Brutally honest... a deeply extraordinary and original work.” - SEBASTIAN JUNGER. With an estimated 250,000 people killed in 15 years, the Mexican drug war is the most violent conflict in the Western world. It shows no sign of abating. In this book, Dr Teun A. Voeten analyzes the dynamics of the violence. He argues it is a new type of war called hybrid warfare: multidimensional, elusive and unpredictable, fought at different levels, with different intensities with multiple goals. The war ISIS has declared against the West is another example of hybrid warfare. Voeten interprets drug cartels as ultra-capitalist predatory corporations thriving in a neoliberal, globalized economy. They use similar branding and marketing strategies as legitimate business. He also looks at the anthropological, individual level and explains how people can become killers. Voeten compares Mexican sicarios, West African child soldiers and Western jihadis and sees the same logic of cruelty that facilitates perpetrating ‘inhumane’ acts that are in fact very human.

Deemed a "riveting crime story that had my full attention" by retired New York Police Department Chief Michael Scagnelli, "Ransom By Mail" is a suspenseful fiction that will keep you engaged until the final page. Paul R. Payton's first novel will captivate human nature and the conflict of resentment, revenge, and wealth resurfacing and influencing reasoning, life choices, and life's finale in a thriller with twists and turns that no one expects.
