Bangladesh, India, Nepal and Sri Lanka on activists' efforts, it elucidates how they mediate between different spheres that are often (and sometimes legally) kept apart-the political and the legal, the economic and the political, the local and the international. The uniqueness of this book lies in its treatment of 'civil society' as a process brought into being by the actions of specific individuals whose struggles and experiences can profitably be examined for understanding everyday politics. The ethnographic studies lay bare how activists in the entire region continuously wrestle with the tensions between the tidy boxes of official classifications and the fuzzy categories of everyday life.

The psychological description and explanation of how children learn to work with numbers is dominated by the theories of Piaget. Yvette

Solomon suggests an alternative approach to the child's conception of number.

Eureka Math is a comprehensive, content-rich PreK – 12 curriculum that follows the focus and coherence of the Common Core State Standards in Mathematics (CCSSM) and carefully sequences the mathematical progressions into expertly crafted instructional modules. The companion Study Guides to Eureka Math gather the key components of the curriculum for each grade into a single location, unpacking the standards in detail so that both users and non-users of Eureka Math can benefit equally from the content presented. Each of the Eureka Math Curriculum Study Guides includes narratives that

provide educators with an overview of what students should be learning throughout the year, information on alignment to the instructional shifts and the standards, design of curricular components, approaches to differentiated instruction, and descriptions of mathematical models. The Study Guides can serve as either a self-study professional development resource or as the basis for a deep group study of the standards for a particular grade. For teachers who are new to the classroom or the standards, the Study Guides introduce them not only to Eureka Math but also to the content of the grade level in a way they will find manageable and useful. Teachers familiar with the Eureka Math curriculum will also find this resource valuable as it allows for a meaningful study of the grade level content in a way that highlights the coherence between modules and topics. The Study Guides allow teachers to obtain a firm grasp on what it is that students

Investigating University-School Partnerships: A Volume in Professional Development School Research, the fourth book in the PDS Research Series developed by the same editors, includes a collection of organized papers that represent the best and latest examples of practitioner thinking, research, and program design and evaluation in the field at the national level. A wide variety of authors from the professional community of PDS researchers, practitioners, and other stakeholders engage the reader in research or case studies that foreground real-life, authentic contexts, which, in turn, are designed to generate and fashion more questions and ideas. The volume ' s contents of 26 chapters is divided into five areas: (1) PDS Evaluation (2) Teacher Research and Inquiry, (3) PDS Stakeholders '

Studies, (4) Studies for Thought – Ideas for Development, and (5) Teaching Content Areas in PDSs. As a whole, the volume of papers maintains a consistency within a cohesive undercurrent that illustrates the spirited and visionary purpose of professional development schools to advance educational reform that leads to substantive change.

Assessment for Learning is based on a two-year project involving thirty-six teachers in schools in Medway and Oxfordshire. After a brief review of the research background and of the project itself, successive chapters describe the specific practices which teachers found fruitful and the underlying ideas about learning that these developments illustrate. Later chapters discuss the problems that teachers encountered when implementing the new practices in their classroom and give guidance for school management and LEAs about promoting and supporting

the changes. --from publisher description

This book explores the new product development process of firms developing frugal innovation for the base-of-the-pyramid (BOP) markets in developing countries. Frugal innovations are products characterised by an affordable price-point, durability, usability and core functionalities that are highly adapted to BOP consumers' needs. Frugal products have the potential to drive the development progress and living standards of low-income consumers. With an innovation framework developed from worldwide frugal case studies, this book provides detailed insights through two in-depth start-up firms in Indonesia that have successfully launched frugal products for the low-income market. These two start-ups have addressed two major development challenges for not just Indonesia, but also the global BOP

market – traditional methods of cooking and access to clean drinking water. A detailed roadmap is developed from insights into the processes and management decisions of these two start-ups and combined with previous studies on frugal products. Providing a detailed roadmap across the different phases and stages of the new product development process when developing frugal products, this book will be insightful to not only innovators but also investors and government agencies supporting their activities.
