When a deadly force from the Delta Quadrant threatens to annihilate a world near Deep Space 9, Colonel Kira Nerys and her crew battle to avert an planetary disaster, while Lieutenant Nog and Ensign Thirshar ch'Thane race against time to shut down the spatial portals forever, and Quark becomes embroiled in an interstellar conspiracy. Original.

Dark secrets and forbidden love threaten the very survival of the Shadowhunters in Cassandra Clare's *Queen of Air and Darkness*, the final novel in the New York Times and USA TODAY bestselling *The Dark Artifices* trilogy. *Queen of Air and Darkness* is a Shadowhunters novel. What if damnation is the price of true love? Innocent blood has been spilled on the steps of the Council Hall, the sacred stronghold of the Shadowhunters. Their society now teeters on the brink of civil war. One fragment of the Blackthorn family flees to Los Angeles, seeking to discover the source of the disease that is destroying the race of warlocks. Meanwhile, Julian and Emma take desperate measures to put their forbidden love aside and undertake a perilous mission to Faerie to retrieve the Black Volume of the Dead. What they find there is a secret that may tear the Shadow World asunder and open a dark path into a future they could never have imagined. Caught in a race against

time, Emma and Julian must save the world of the Shadowhunters before a deadly curse destroys them and everyone they love.

Air and Darkness, an intriguing and fantastic adventure, is both an independent novel and the gripping conclusion of the Books of the Elements, a four-volume set of fantasies set in Carce, an analog of ancient Rome by David Drake. Here the stakes are raised from the previous novels in an ultimate conflict between the forces of logic and reason and the forces of magic and the supernatural. During the extraordinary time in which this story is set, the supernatural is dominant. The story is an immensely complex journey of adventure through real and magical places. Corylus, a soldier, emerges as one of the most compelling heroic figures in contemporary fantasy. Battling magicians, spirits, gods, and forces from supernatural realities, Corylus and his companions from the family of the nobleman Saxa—especially Saxa's impressive wife Hedia, and his friend (and Saxa's son) Varus—must face constant deadly and soul-destroying dangers, climaxing in a final battle not between good and evil but in defense of logic and reality.

A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace “A glorious book . . . A spirited defense of science . . . From the

Get Free Demons Of Air And Darkness Gateways 4 Star Trek Gateways

first page to the last, this book is a manifesto for clear thought.”—Los Angeles Times How can we make intelligent decisions about our increasingly technology-driven lives if we don’t understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today’s so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for *The Demon-Haunted World* “Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing.”—The Washington Post Book World “Compelling.”—USA Today “A clear vision of what good science means and why it makes a difference. . . . A testimonial to the power of science and a warning of the dangers of unrestrained

credulity.”—The Sciences “Passionate.”—San Francisco Examiner—Chronicle

A blizzard brings a city to a standstill and ushers in an evil that defies imagination in this gripping tale from #1 New York Times bestselling author Dean Koontz. Winter gripped the city. Terror gripped it, too. They found four corpses in four days, each more hideous than the last. At first the cops thought they were dealing with a psychopath. But soon they heard eerie sounds in the ventilation system—and saw unearthly silver eyes in the snow-slashed night. In a city paralyzed by a blizzard, something watches, something stalks...

Reform isn't in every bad boy's future...or past... Ava Fenaly knows a thing or two about magik, and she knows exactly what she's doing when she summons a demon in her bedroom. Well, almost. Ava is convinced the exhilarating night of passion that follows is all a dream. It has to be, because she's dead set against revisiting her past—and the horrors she left behind long ago. For the last three hundred plus years, Donatus Manlian has been living a peaceful life. Lonely, but peaceful. When the demon he has kept carefully locked within for centuries finally breaks free and responds to Ava's call, the peace—and the loneliness—are gone.
