The consequences of using the ancient Throne has torn open a hole in the fabric of the magic world. With all that magic flowing out it's unsurprising that creatures who feed on magic will show up for a feed. This creates an interesting problem for magic users who effectively become helpless and it's up to the melee classes to stand against the horde. One of the things I liked about this entry is that the Stonehaven npc's rescue themselves and they aren't just passive props. Greel is a nasty character when engaged in his own specialty. Who would have thought that the law could cause starborn physical damage. Quite an amusing scene. The conclusion was unexpected and creates opportunities for both levelling and exploration.

Somewhere out there, in the great expanse of space and time, exist the Fabled Islands. Nobody knows how or why they exist, but only that it is a strange and special place that operates under laws separate the universe. The Fabled Islands are made up of vast floating continents. They vary in size, with some ranging from the surface area of a small planet, to a star. If you look at them from afar, you would find that they are placed in a line. Each island is separated by a vast amount of space, so there is only one way to travel from one island to the next; a gateway on the edge of the island. Each island is governed by strange rules. The only thing they share in common, is that the rules are governed by the System. The rules change vastly from one island to the next, so you must quickly adapt. Tristan was raised on the first island, Fertility Island, and has finally been allowed to become a Brave; a respected profession throughout the islands. Fertility Island is a peaceful island. There are hardly any monsters, the land is fertile, and the people kind. This is the complete opposite of what Tristan wants. Bring on the monsters! Bring on the magical items! I want adventure, loot, and to put my life on the line! Where are the dungeons, caverns, and mountains to be explored? Where is the mythical equipment to be found? The next island? Then the next island I will go! His adventure begins now. This is Book 1 of the The Fabled Islands series.

Zorian Kazinski has all the time in the world to get stronger, and he plans on taking full advantage of it. A teenage mage of humble birth and slightly above-average skill, Zorian is attending his third year of education at Cyoria's magical academy. A driven and quiet young man, he is consumed by a desire to ensure his own future and free himself of the influence of his family, resenting the Kazinskis for favoring his brothers over him. Consequently, Zorian has no time for pointless distractions, much less other people's problems. As it happens, though, time is something he is about to get plenty of. On the eve of Cyoria's annual summer festival, Zorian is murdered, then abruptly brought back to the beginning of the month, just before he was about to take the train to school. Finding himself trapped in a time loop with no clear end or exit, he will have to look both within and without to unravel the mystery set before him. He does have to unravel it, too, because the loop clearly wasn't made for his sake, and in a world of magic even a time traveler isn't safe from those who wish him ill. Fortunately for Zorian, repetition is the mother of learning...

[I was reborn too weak to be an adventurer, so I opened an item shop by the dungeon instead!] Reborn into a fantastical RPG-system based world, Fresh is offered a second chance at life. Initially glad to have escaped her old life, she quickly realizes that this new one might not be much better. Her new body is too frail to follow any grand dreams of adventure, her new mind is too dulled to allow any meticulous planning and this new, seemingly colorful, kind world is anything but. Needing a way to survive in this horrible place, Fresh bands together with some unusual people and they take on an entirely new challenge; running an item shop just outside of the dungeon! [Book 1]

As the two eldest Bannon sons, Will and Mac, see action during the Battle of Gettysburg, their family awaits word of the fate of their two sons as rumors spread about the large number of casualties.

Street thug Riko has some serious issues—memories wiped, reputation tanked, girlfriend turned into a tech-fueled zombie. And the only people who can help are the mercenaries who think she screwed them over. In an apathetic society devoid of ethics or regulation, where fusing tech and flesh can mean a killing edge or a killer conversion, a massive conspiracy is unfolding that will alter the course of the human condition forever. With corporate meatheads on her ass and a necro-tech blight between her and salvation, Riko is going to have to fight meaner, work smarter, and push harder than she's ever had to. And that's just to make it through the day. File Under: Science Fiction

He's going to need courage, he's going to need wit, and he's going to need some magic powers of his own. But first, he's going to need pants. After cementing itself as one of the best-rated serial novels on Royal Road with an astonishing 13 million views, *He Who Fights with Monsters* is now available on Kindle.
