This is probably the most famous of all of the guitar learning books, and comes with a price tag of around \$13 right now. This Hal Leonard guitar book is actually a series of 3 books, each around 50 pages, and it comes with 3 supplemental CDs which you can refer to during the chapters. I would recommend this book to younger students (under 20). It is ultra simplistic, which can be nice in some instances, but a bit boring in others.

Quite dry, not too inspiring. 2 - A series of songs with 'easy play' tabs and chord ...

NOTE: From looking at this, one might think that the only differences between this and the softcover magazine-format "The Best Instruction GUIDE Ever!" that one can find at various bookstores for \$14.99 or via Guitar World online are: 1) this book is hardcover (which is easier to lay open flat), and 2) this book has an accompanying DVD.
