An eye-opening and previously untold story, *Factory Girls* is the first look into the everyday lives of the migrant factory population in China. China has 130 million migrant workers—the largest migration in human history. In *Factory Girls*, Leslie T. Chang, a former correspondent for the *Wall Street Journal* in Beijing, tells the story of these workers primarily through the lives of two young women, whom she follows over the course of three years as they attempt to rise from the

assembly lines of Dongguan, an industrial city in
China 's Pearl River Delta. As she tracks their lives,
Chang paints a never-before-seen picture of migrant
life—a world where nearly everyone is under thirty;
where you can lose your boyfriend and your friends
with the loss of a mobile phone; where a few computer
or English lessons can catapult you into a completely
different social class. Chang takes us inside a sneaker
factory so large that it has its own hospital, movie
theater, and fire department; to posh karaoke bars that
are fronts for prostitution; to makeshift English classes
where students shave their heads in monklike devotion
and sit day after day in front of machines watching
English words flash by; and back to a farming village

Read Free Factory From Village To City In A Changing China Factory From Village To City In A Changing China, revealing the poverty and idleness of rural life that drive young girls to leave home in the first place. Throughout this riveting portrait, Chang also interweaves the story of her own family ' s migrations, within China and to the West, providing historical and personal frames of reference for her investigation. A book of global significance that provides new insight into China, Factory Girls demonstrates how the mass movement from rural villages to cities is remaking individual lives and transforming Chinese society, much as immigration to America ' s shores remade our own country a century ago.

Addressing East Asia's rapid urban transformation, *The Vertical Village* looks at radical alternatives to the familiar standardized block architecture that has eradicated low-rise, "lighter" varieties of architecture, such as the Hutong in Beijing, Tokyo's wooden house

Read Free Factory From Village To City In A Changing China Factory From Village To City and the villages of Singapore. These "urban villages" have fostered a connected community living instead of isolating citizens in tower blocks. This volume, the latest publication from The Why Factory, attempts to reconcile the two models, proposing a contemporary "vertical village" that restores neighborhood life to East Asian--and perhaps western--civic centers. It features innovative designs for high-rise structures, detailed case studies for Tokyo, Beijing, Shanghai, Taipei, Djakarta, Seoul and Bangkok, plus interviews with Winy Maas, Alfredo Brillemburg, Hubert Klumpner, Lieven De Cauter, Peter Trummer and families living in Taipei (where the originating Why Factory exhibition was held).

Read Free Factory From Village To City In A Changing China Factory From Village To City In A Changing China By Chang Leslie

"Between 1988 and 2013, the Chinese city of Zouping transformed from an impoverished village of 30,000 people to a bustling city of over 300,000, complete with factories, high rises, parks, shopping malls, and all the infrastructure of a wealthy East Asian city. From Village to City paints a vivid portrait of the rapid change of Zouping, its environs, and the lives of the once-rural people who live there. Despite its modernization and higher standards of living, Zouping is far from a utopia; its inhabitants face new challenges and problems such as alienation, class formation and exclusion, patriarchy, and pollution. To understand this transformation, Andrew B. Kipnis has developed a

theory of urbanization, demonstrated in his compelling portrayal of an emerging metropolis and the hopes, fears, joys, and sorrows of the people who call it home" - Provided by publisher.

This book argues for the value of urban villages as places. To reveal their qualities, a series of drawings and photographs uncovers the immense concentration of social life in their dense structures and provides a peek into residents homes and daily lives.

In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Factory Girls: From Village to City in a Changing China." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

The English-language debut of Hiroko Oyamada—one of the most powerfully strange young voices in Japan The English-language debut of one of Japan's most exciting new writers, *The Factory* follows three workers at a sprawling industrial factory. Each worker focuses intently on the specific task they've been assigned: one shreds paper, one proofreads documents, and another studies the moss growing all over the expansive grounds. But their lives slowly become governed by their work—days take on a strange logic and momentum, and little by little, the margins of reality seem to be dissolving: Where does the factory end and the rest of the world begin? What's going on with the strange

animals here? And after a while—it could be weeks or years—the three workers struggle to answer the most basic question: What am I doing here? With hints of Kafka and unexpected moments of creeping humor, *The Factory* casts a vivid—and sometimes surreal—portrait of the absurdity and meaninglessness of the modern workplace.
