The Standard Coupe 16V turbo is a Air research T3 "50 trim" TB0367 (note T3 not T28 as the 20v's are). This has a .48a/ exhaust side with a standard stage 1 T3 turbine (lancia thema has .36a/ exhaust housing which is too small for the coupe) This turbo is designed for low end response, to come in early in the revs and really runs out of puff over 5000rpm, it is designed to be a good around ...

I'm doing a Coupe 16v turbo engine conversion and have located a suitable donar car. Currently though I am torn between getting the whole vehicle or removing the parts I require. Anyway I'm here to present a question on the engine loom. Can the engine loom function without the body loom from within the rest of the car? I.e - Is there a big multi-plug that connects a few items such as the rev ...
