An ebook is a book that is available electronically. Various formats are used, but one of the most popular is Adobe Acrobat, since the pdf files produced by this software can be viewed using almost any e reader - such as the Kindle, Kobo or Nook - or on virtually any computer, including easily-carried netbooks or laptops and, of course, iPads and similar devices.

The story of Sunflower Books began in 1973, when John and Pat Underwood first visited Madeira on their honeymoon and fell in love with the island. They returned year after year, making notes about their favourite walks - many of which were along the levadas (watercourses with adjacent footpaths, which penetrate virtually every part of the mountainous terrain).
