are one of the most frequently cited causes of many deficiencies and observations found in Forms 483 and Warning Letters. And while specific SOP issues can often be traced back to poor communication, monitoring, and/or enforcement, a poorly written SOP can quietly grow into a host of other major compliance problems.

Record-keeping SOPs help manufacturing operations meet their PIC/S GMP requirements (quality standards and risk management standards). They are particularly crucial in pharmaceutical, veterinary medicine and medical device manufacturing industries, given the risk to end-users of the products (e.g. consumers/patients, pets and livestock).
