This book discusses
the design of the new
mobility assistive

Download Ebook Gsm

information and
communication
technologies (ICT)

devices for the
visually impaired. The
book begins with a
definition of the
space concept,
followed by the
concept of interaction
with a space during
mobility and this
interaction
characteristics. The

Download Ebook Gsm

Contributors will then examine the neuro-cognitive basis of space perception for mobility and different theories of space perception. The text presents the existing technologies for space perception (sense recovery with stem and iPS cells, implants, brain plasticity, sensory

Download Ebook Gsm

substitution devices,
multi-modal
technologies, etc.), the
newest technologies
for mobility
assistance design, the
way the feedback on
environment is
conveyed to the end-
user. Methods for
formative and
summative
evaluations of the
mobility devices will

Download Ebook Gsm

also be discussed. The book concludes with a look to the future trends in research and technology development for mobility assistive information and communication technologies.
