Spring Notes - Mrs. Snow's Math –  
McNeil High School

Using the Analyze Linear Function Notes,  
I will first ask students to label the slope  
and y-intercept of the equation on the top  
of their paper ( $y = 2x + 1$ ). They should  
then graph the line on the coordinate plane

# Online Library Guided Notes 2 7 Linear

provided. Next, I will ask students to pick four points that are on the line as well as four points that are not on the line.
