This comprehensive bibliography includes books written about or set in Appalachia from the 18th century to the present. Titles represent the entire region as defined by the Appalachian Regional Commission, including portions of 13 states stretching from southern New York to northern Mississippi. The bibliography is arranged in alphabetical order by author, and each title is accompanied by an annotation, most of which include composite reviews and critical analyses of the work. All classic genres of children's literature are represented.

This volume seeks to answer the call for richer, more diverse understandings of disability through questions about narrative frameworks in disability research.Narrative is a omnipresent meaning-producing communication form in social life that is both cultural and personal.

This supplement to the 8th edition of the classic guide to children's books includes more than 5,000 in-print titles recommended for children aged 5 to 12. The thematic organisation, concise annotations, and complete bibliographic data and review citations make this volume equally useful for reader's advisory, research, and collection development.

In an event that is mirrored by a later experience in the Navy during World War II, young John F. Kennedy and his sister go sailing, and even after a harsh storm rolls in, John remains confident that he can bring them home safely.

Offers reviews and recommendations of over 25,000 titles for children, and includes brief annotations, bibliographic data, and review citations.
