The Ancient Egyptian king Thutmose III described the chicken as a marvelous foreign bird that "gives birth daily." Romans brought them on their military campaigns to foretell the success of future battles. Today, this bird occupies a much less honorable position - on dinner plates. Chris Kniesly explains the evolving role of chickens throughout

American History Through the Eyes of the Presidents

Illustrated with pages from the Arbeitsjournal and War Primer and contextual images including Raoul Hausmann's poem-posters and Walter Benjamin's drawings, The Eye of History offers a new view of important but little-known works by Brecht. Didi-Huberman shows that Brecht took positions without taking sides; he used these montages to challenge the viewpoints of the press and

Baked or fried, boiled or roasted, as chips or fries; at some point in your life you've probably eaten a potato. But potatoes have played a much more significant role in our history than just that of the dietary staple we have come to know and love today. Leo Bear-McGuinness shares how without the potato, our modern civilization might not exist at all.

I believe this gave me a unique perspective on American history, because I first viewed historical events through the eyes of women, not men. I didn't stop with those dirty orange-covered books, I continually sought out books about women in history, shaping my view of history in a way that at the time, I didn't know was unique.

Dragon Age 4's History Through the Eyes of Solas and the Elves

In the late twelfth century, Master Nicolaus wrote: "The optic nerve, which descends from the brain to the eyes, passes through the center of the eye as far as the crystalline humor, through it comes the visible spirit, and as it emerges through the uveal tonic and the cornea it is mingled with clean air and transports its rays to the body, and thus sight is brought about."
