Finally, homeschoolers have a comprehensive guide to designing a homeschool curriculum, from one of the country's foremost homeschooling experts. . Rebecca Rupp presents a structured plan to ensure that your children will learn what they need to know when they need to know it, from preschool through high school. Based on the traditional pre-K through 12th-grade structure, Home Learning Year by Year features: The integral subjects to be covered within each grade Standards for knowledge that should be acquired by your child at each level Recommended books to use as texts for every subject Guidelines for the importance of each topic: which knowledge is essential and which is best for more expansive study based on your child's personal interests Suggestions for how to sensitively approach less academic subjects, such as sex education and physical fitness

Provides parents with subject-by-subject guidelines that outline the major concepts and topics that should be covered each year to meet accepted national educational standards and offers advice on learning goals, content, and teaching materials.

Provides parents with subject-by-subject guidelines that outline the major concepts and topics that should be covered each year to meet accepted national educational standards and offers advice on learning goals, content, and teaching materials.

Homeschool the right way from day one. Are you considering homeschooling for your family? Today, many parents recognize that their child's school options are limited, inadequate, or even dangerous, and an increasing number are turning to homeschooling. But where do you start and how do you ensure the highest-quality educational experience, especially in that pivotal first year? This comprehensive guide will help you determine the appropriate first steps, build your own educational philosophy, and discover the best ways to cater to your child's specific learning style, including: -When, why, and how to get started -The best ways to develop an effective curriculum, assess your child's progress, and navigate local regulations -Kid-tested and parent-approved learning activities for all age levels -Simple strategies for developing an independent child and strengthening family and social relationships -And much, much more! To the thousands of requests we receive for help from families new to homeschooling, we will now recommend this warm and knowledgeable book. It will ensure that all families make it to the second year(including yours"!Elizabeth Kanna, editor in chief, Homeschool.com "Linda Dobson addresses all the issues facing parents as they consider the task of homeschooling over other educational options. Those who wonder whether they really can or want to do the job will find unique perspectives in this well-researched work."Beverly K. Eakman, author and cofounder, National Education Consortium

Describes the advantages and challenges of home schooling, and gives specific advice on covering language, math, science, history, geography, and the arts

Lists all the resources needed to create a balanced curriculum for homeschooling--from preschool to high school level

Discover the Rewards of Homeschooling Your Young Child Young children are full of curiosity, imagination, and a sense of wonder. They're willing to try new things and possess a natural joy of discovery. Yet in a traditional school, these natural behavior traits are too often squelched. That's why more and more parents just like you are choosing to teach their children at home during these critical years:the years that lay the foundation for developing learning skills that last a lifetime. Inside, respected homeschooling author Linda Dobson shows you how homeschooling can work for you and your young child. You'll discover how to: -Tailor homeschooling to fit your family's unique needs -Know when your child is ready to learn to read -Teach your child arithmetic without fear!even if you're math-challenged -Give your child unlimited learning on a limited budget -And much more! -Brings dazzling clarity to the otherwise nerve-wracking confusion of early learning!and the adventure of becoming fully human. Highly recommended."John Taylor Gatto,former New York State Teacher of the Year and author of Dumbing Us Down "Provides a much-needed introduction to living and learning with young children. Open the book to any page and you'll find inspiring anecdotes and approaches to learning that leave the reader thinking, 'That just makes so much sense!' Highly recommended for anyone who lives, works, or plays with young children."Helen Hegener, managing editor of Home Education Magazine "An information-packed delight: I only wish it had been around when our three boys were three to eight years old."Rebecca Rupp, author of The Complete Home Learning Sourcebook "This book brings together the experience and wisdom of a great variety of homeschooling families,tied together with warm encouragement and wonderful simplification of processes that can seem so mysterious and daunting to the beginner. A very solid resource!"Lillian Jones, homeschooling activist, writer, and reviewer

A critical volume for the homeschooling community that helps parents make informed choices regarding learning styles and curriculum
