HUSQVARNA 535RXT Husqvarna 535RXT is a new brushcutter in the versatile 35 cc class, built for tough commercial use. Top class performance is provided through raw power, unique ergonomics and excellent durability. The machine is equipped with a comfort package including LowVib® and comfort grip handles.

Provides suggestions for selecting sewing supplies and setting up a sewing room, copying and existing garment, and making professional and designer-type details

The only biography of its kind, *Lincolnomics* narrates The Great Emancipator's untold legacy as The Great Builder of American infrastructure—developer of an economic ladder to democracy through national transportation, public education, and market access. Lincoln's view of the right to fulfill one's economic destiny was at the core of his governing philosophy—but he knew no one could climb that ladder without strong federal support. Some of his most enduring policies came to him before the Civil War, visions of a country linked by railroads running ocean to ocean, canals turning small towns into bustling cities, public works bridging farmers to market. Expertly appraising the foundational ideas and policies on infrastructure that America's sixteenth president rooted in society, John F. Wasik tracks Lincoln from his time in the 1830s as a young Illinois state legislator pushing internal improvements; through his work as a lawyer representing the Illinois Central Railroad in the 1840s; to his presidential fight for the Transcontinental Railroad; and his support of land-grant colleges that educated a nation. To Lincoln, infrastructure meant more than the roads, bridges, and canals he shepherded as a lawyer and a public servant. These brick-and-mortar developments were essential to a nation's lifting citizens above poverty and its isolating origins. *Lincolnomics* revives the disremembered history of how Lincoln paved the way for Eisenhower's interstate highways and FDR's social amenities. With an afterword addressing the failure of American infrastructure during the COVID-19 pandemic, and how Lincoln's policies provide a guide to the future, *Lincolnomics* makes the case for the man nicknamed "The Rail Splitter" as the Presidency's greatest builder.

Gives creative suggestions for making crafts with a sewing machine, for Christmas, Easter, Halloween, and Thanksgiving

Lindee Goodall, founder and former owner of Cactus Punch, the first independent company to design embroidery specifically for the home market, gives you everything you need to know to produce quality embroidery no matter how small and basic or large and fancy your machine. Foreword by Deborah Jones.

Designed to guide learners through the often disorienting experience of taking a first art history class, this book addresses all aspects of that total experience. KEY TOPICS Specific chapter topics cover note-taking during lecture, studying for and taking slide exams, writing response papers, methodology, how to critique secondary scholarship, and what to do with an art history degree. For individuals with little or no experience in art history, and an interest in the powerful images that can provide a rich perspective on social, political, and cultural history.
