includes survival tactics and tips for success on the boards and wards as well as key information for those new to the surgical suite.

Thoroughly updated for its Fifth Edition, this reference for third and fourth year medical students on surgical clerkships enables quick study in a rapid-fire Q&A format. A perfect fit for a lab coat pocket, this book is commonly used as a quick review prior to surgical rounds as well as for board review. Purchasers of this edition will get both the print book and access to MP3 audio files of the entire text. All Q&A material will also be posted online in the form of electronic flashcards for self-quizzing.

Advanced Medicine Recall is written primarily for fourth year medical students, sub-interns, and interns. It expands upon the core clinical specialty areas within internal medicine—cardiology, pulmonology, nephrology, gastroenterology, hematology, oncology, infectious disease, endocrinology, allergy and immunology, rheumatology, neurology, and dermatology. This book is written in the rapid-fire question and answer format of the Recall Series, with the question on the left side of the page and the answer on the right. Mnemonics are interspersed throughout. Additional chapters in Advanced Medicine Recall include Environmental Medicine, Psychiatry, and The Consultant. The focus of the advanced material is on differential diagnosis, patient management, and disease management.
