Module 2 Chapter 5: Integrating, Implementing, and Evaluating. By this point in the process, a social worker will have devoted a great deal of energy and effort toward generating a pool of evidence-supported materials which can help inform practice decisions. In reviewing and evaluating these materials, it is important to keep in mind the lessons learned in our earlier course concerning the problem with pseudoscience.

Abstract. Real-world implementation of injury prevention interventions and evaluation of their effectiveness need to take into account the broad ecological context in which they are introduced. This chapter provides perspectives and guidance on (1) the design, conduct, and evaluation of studies that are concerned with the effectiveness of injury prevention and safety promotion interventions and (2) research to better understand the context for intervention delivery.
