Functions and inequalities worksheet - Math
Insight

To solve an inequality involving rational functions, we set our numerator and denominator to 0 and solve them separately.

Where To Download Inequalities Involving

This will give us numbers that divide our function into intervals.

and turn our attention to inequalities involving logarithmic functions. Since logarithmic functions are continuous on their domains, we can use sign diagrams.

Example 6.4.2. Solve the following inequalities. Check your answer graphically using a calculator.

- $\ln(x) + 1 > 0$
- $\log_2(x) + 1 > 0$
