Iran, also known as Persia (officially the Islamic Republic of Iran), is a country in Western Asia. It is bordered to the northwest by Armenia, the de facto independent Nagorno-Karabakh Republic and Azerbaijan; with Kazakhstan and Russia across the Caspian Sea; to the northeast by Turkmenistan; to the east by Afghanistan and Pakistan; to the south by the Persian Gulf and the Gulf of Oman; and to the west by Turkey and Iraq. Take a detailed look at this beautiful, diverse country and its ancient historical roots in this book by author Nicholas C. Lane Jr.

When Naser al-Din Shah, who ruled Iran from 1848 to

Read PDF Iran Culture History And Geography Of Persia

1896, claimed the title Shadow of God on Earth, his authority rested on premodern conceptions of sacred kingship. By 1941, when Mohammad Reza Shah Pahlavi came to power, his claim to authority as the Shah of Iran was infused with the language of modern nationalism. In short, between roughly 1870 and 1940, Iran's traditional monarchy was forged into a modern nation-state.

This Graphic Training Aid is about the culture of Iran. Topics include: Introduction and Geography; History; Iranian Cultural Beliefs; Customs and Engaging Iranians; Strategic Culture; and Structures and Institutions covering: Political; Military; Economy;

Social; Infrastructure; Information; Local Measures; Calendar and Holidays; and further reading. Included is a Primer: Cross Cultural Competence; Fundamentals; Cultural Awareness; Cultural Knowledge; and Cultural-General Concepts.

The modern sense of “Greater Khorasan” today corresponds to a territory which not only comprises the region in the east of Iran but also, beyond Iranian frontiers, a part of Afghanistan and Turkmenistan. In the past this entity was simply defined as Khorasan. In the Sassanidera Khorasan defined the “Eastern lands”. In the Islamic era this term was again taken up in the same sense it previously enjoyed. The Arab

sources of the first centuries all mention the eastern regions under the same toponym, Khorasan. Khorasan was the gateway used by Alexander the Great to go into Bactria and India and, inversely, that through which the Seljuks and Mongols entered Iran. In a diachronic context Khorasan was a transit zone, a passage, a crossroads, which, above all in the medieval period, saw the creation of different commercial routes leading to the north, towards India, to the west and into China. In this framework, archaeological researches will be the guiding principle which will help us to take stock of a material culture which, as its history, is very diversified. They also offer valuable elements on commercial links between

the principal towns of Khorasan. This book will provide the opportunity to better know the most recent elements of the principal constitutive sites of this geographical and political entity.

"Andrew Newman offers a complete re-evaluation of the dynasty's place in history as it presided over these extraordinary developments and the wondrous flowering of Iranian culture. Safavid longevity, in Newman's analysis, derived from the success of court efforts both to give voice to the interests and 'agendas' of its many different groups of subjects and to portray the shah as the simultaneous spokesman for, and transcendent ruler over, the entire nation.

Twelver Shi'ism emerges as a contested arena in this process but less intolerant than is often supposed."

"Throughout, Newman questions the continued reliance on frequently contradictory and unevenly informed contemporary European accounts and on Persian language sources often written well after the events in question. Based on meticulous scholarship, he shows the extraordinary development and achievement of the period and offers a valuable new interpretation of the eventual demise of the Safavids in the eighteenth century."--Jacket.
