The broad scope of the dream material analyzed in this book allows the authors to touch upon many subjects associated with the nature of the psyche, not only those relevant to pregnant women. The careful interpretation of the amplificatory material drawn from a wide range of cultures also makes this an inspiring aid for the understanding of dreams, valuable to psychologists,

doctors, midwives or anyone else interested in this human subject.

The Collected Works of Marie-Louise von Franz is a 28 volume Magnum Opus from one of the leading minds in Jungian Psychology. Volume 1, released on her 106th birthday, is to be followed by 27 more volumes over the next 10 years. Volume 2 turns to the Hero's Journey within fairytales. The Hero's Journey is about the great adventure that leads to a cherished and difficult to obtain prize. In these fairytales, the Self is often symbolized as that treasured prize and the hero's travails symbolize the process of individuation. In its many manifestations, the hero embodies the emerging

personality. "In the conscious world, the hero is only one part of the personality—the despised part—and through his attachment to the Self in the unconscious is a symbol of the whole personality." Von Franz's prodigious knowledge of fairytales from around the world demonstrates that the fairytale draws its root moisture from the collective realm. This volume continues where Volume 1 left off as von Franz describes the fairytale, "suspended between the divine and the secular worlds (...) creating a mysterious and pregnant tension that requires extreme power to withstand." The resistance of the great mother against the hero and his humble origins, as well as the hero freeing the anima figure

from the clutches of the unconscious are universal archetypal patterns. The spoils retrieved by the hero symbolize new levels of consciousness wrested from the unconscious.

Seit über 35 Jahren setzt sich Alfred Ribi in seiner Forschungs- und Praxistätigkeit intensiv mit der Psychologie C.G. Jungs auseinander. In diesem Zeitraum sind zahlreiche Aufsätze, Referate und Zeitungsartikel entstanden, welche nun in zwei Teilbänden gesammelt vorliegen und die vielfältigen Aspekte von Jungs Werk beleuchten. Gesamthaft betrachtet können die Beiträge als Einführung in die Jung'sche

Psychologie verstanden werden. Sie sollen aber auch zur persönlichen Auseinandersetzung mit Jungs Werk anregen. Die Aufsätze und Vorträge sind in fünf grosse Themenblöcke gegliedert: Biographisches zu C.G. Jung, Beiträge zur Tiefenpsychologie und Psychiatrie, Vorträge zu Gnosis und Alchemie. Der vierte und der fünfte Abschnitt befassen sich mit Zeitfragen, welche unter den Themen «Das Problem von Psyche und Materie - Synchronizität» und «Heimat - Zeitprobleme» zusammengefasst sind.

Dieses Werk stellt die vier psychischen Grundfunktionen Empfinden, Intuieren, Fühlen und Denken vor - allgemein sowie in

ihrer extravertierten und introvertierten Ausprägung. Es wird auf ihre Bedeutung für die individuelle Entfaltung, für schulische Förderung und gesellschaftliche Zeitstile sowie ihre Symbolik und spirituelle Bezüge eingegangen. Basierend auf Jungs Forschungen zur Typologie wird ein modernes Modell der ausgewogenen Entwicklung aller Funktionen vorgestellt, welches therapeutische Relevanz über unterschiedliche Psychotherapieschulen hinaus hat. Es ermöglicht, neurotische Einseitigkeiten und Dissoziationen diagnostisch zu erfassen und therapeutisch zu bearbeiten, eigene Begabungen zu erkennen und ins innere Gleichgewicht zu

German-speaking tradition of Goethe and Schiller, with which Jung was well acquainted. Analytical Psychology and German Classical Aesthetics argues that analytical psychology appropriates many of its central notions from German classical aesthetics, and that, when seen in its intellectual historical context, the true originality of analytical psychology lies in its reformulation of key tenets of German classicism. Although the importance for Jung of German thought in general, and of Goethe and Schiller in particular, has frequently been acknowledged, until now it has never been examined in any detailed or systematic way. Through an analysis of Jung's reception of

Goethe and Schiller, Analytical Psychology and German Classical Aesthetics demonstrates the intellectual continuity within analytical psychology and the filiation of ideas from German classical aesthetics to Jungian thought. In this way it suggests that a rereading of analytical psychology in the light of German classical aesthetics offers an intellectually coherent understanding of analytical psychology. By uncovering the philosophical sources of analytical psychology, this first volume returns Jung's thought to its core intellectual tradition, in the light of which analytical psychology gains new critical impact and fresh relevance for modern thought. Written in a scholarly yet

accessible style, this book will interest students and scholars alike in the areas of analytical psychology, comparative literature, and the history of ideas.

Archetypal images, Carl Jung believed, when elaborated in tales and ceremonies, shape culture's imagination and behavior. Unfortunately, such cultural images can become stale and lose their power over the mind. But an artist or mystic can refresh and revive a culture's imagination by exploring his personal dream-images and connecting them to the past. Dante Alighieri presents his *Divine Comedy* as a dream-vision, carefully establishing the date at

which it came to him (Good Friday, 1300), and maintaining the perspective of that time and place, throughout the work, upon unfolding history. Modern readers will therefore welcome a Jungian psychoanalytical approach, which can trace both instinctual and spiritual impulses in the human psyche. Some of Dante's innovations (admission of virtuous pagans to Limbo) and individualized scenes (meeting personal friends in the afterlife) more likely spring from unconscious inspiration than conscious didactic intent. For modern readers, a focus on Dante's personal dream-journey may offer the best way into his poem.
