Welders - Lincoln Welder Sa-200 - The Trout Underground

The Lincoln SA-200 has the best arc welding characteristics of any engine driven welding machine ever made. Professional welders have used these machines for field welding since before World War 2, we have customers who are today, profitably using SA-200machines that were manufactured in the 1940's! Even though the Continental F-series engines were designed in the 1920's, the latest technology available will allow us to upgrade and maintain these machine for the foreseeable future!
