The author of *The Wisdom of Insecurity* and *The Way of Zen* draws upon a variety of religious traditions to explore Taoism, living in the present moment, and more In this collection of writings, including nine new chapters never before available in book form, Alan Watts displays the intelligence, playfulness of thought, and simplicity of language that has made him so perennially popular as an interpreter of Eastern thought for Westerners. He draws on a variety of religious traditions, and covers topics such as the challenge of seeing one's life “just as it is,” the Taoist approach to harmonious living, the limits of language in the face of ineffable spiritual truth, and the psychological symbolism of Christian thought. “Life exists only at this very moment, and in this moment it is infinite and eternal. For the present moment is infinitely small; before we can measure it, it has gone, and yet it exists forever. . . . You may believe yourself out of harmony with life and its eternal Now; but you cannot be, for you are life and exist Now.” —from *Become What You Are*

Published in association with the British Association of Sport and Exercise Sciences, this is the only up-to-date, practical guide to using the range of biomechanics movement analysis machines, equipment and software available today. It includes detailed explanations of the key theory underlying biomechanics testing, along with advice concerning choice of equipment and how to use your laboratory equipment most effectively. The book covers the following important topics in detail: motion analysis using video and on-line systems measurement of force and pressure in the laboratory and field measurement of power using isokinetic dynamometry electromyography computational simulation and modelling of human movement research methodologies, data processing and data smoothing. Contributors include world leading researchers and pioneers such as Roger Bartlett, Carl Payton, Vasilios (Bill) Baltzopoulos, Adrian Burden, John H. Challis, and computer modelling maestro Fred Yeadon. *Biomechanical Evaluation of Movement in Sport and Exercise* is a must-have text for all biomechanics laboratories and students undertaking research.

Includes list and diagram of 1969 Motor Vehicle Safety Standards Areas.

Communication in an Era of Global Conflicts assesses trends and issues in communication and their implications for conflicts in the African context. In doing so, the various chapters draw from culture, tradition, folklore, communication and conflict theories, principles and strategies, and from systems approach to conflict resolution. The underlying assumption of all the chapters is the pivotal role of communication-new media, traditional mass communication, interpersonal communication, intercultural communication, and communication technologies-in conflict and conflict resolution. This book is unique for its multidimensional perspectives, a long overdue addition to the growing literature on conflicts in Africa.
