The purpose of this guidance document is for the appropriate selection procurement utilization and maintenance of oxygen concentrators. This document also focuses on recommendations for the appropriate use and maintenance of oxygen concentrators in an effort to increase the availability management and quality of oxygen concentrators and ultimately to improve health outcomes in LRS. This document is intended to serve as a resource for the planning and provision of local and national oxygen concentrator systems for use by administrators clinicians and technicians who are interested in improving access to oxygen therapy and reducing global mortality associated with hypoxaemia.

This field guide gives the reader access to the largest parts store in the world for 1946-1948 Dodge Deluxe and Custom D24 models, with information from more than 200 aftermarket catalogs for Dodge parts made in the U.S.A. On-the-spot identification is made possible by part number listings, separating D24 parts from thousands of similar ones. Line drawings adapted from factory literature, brochures and advertisements illustrate the key features and details of parts as they would be found at swap meets or flea markets. Using this book in combination with the Internet, parts-hunters can quickly identify and acquire what they need online.
