The Reciprocity Law from Euler to  
Eisenstein Gunther Frei o Introduction The  
Reciprocity Law plays a very central role in  
number theory. It grew out of the theory of  
quadratic forms. The Quadratic Reciprocity  
Law was first formulated by Euler and

Legendre and proved by Gauss and partly  
by Legendre. The search

~~The Reciprocity Law from Euler to  
Eisenstein~~

Euler first stated a theorem equivalent to the  
quadratic reciprocity law in his paper [211,  
p. 217] in 1744 (see Kronecker's remarks in

# Get Free Reciprocity Laws From Euler To Eisenstein

[439]; in modern terminology, Euler observed that the quadratic residue character of  $p$  modulo primes of the form  $4pn \pm s$  with  $0 < s < 4p$  and  $(s, 2p) = 1$  does not depend on  $s$ ).
