Awareness, Infinite Consciousness. We are imprisoned in the realms of the five senses and 'little me' when we are All That Is, All That Has Been and all That Can Ever Be. Leadership requires many attributes besides intelligence and business savvy—courage, character, compassion, and respect are just a few. New managers learn concrete skills in the classroom or on the job, but where do they hone the equally important human values that will guide them through a career that is both successful and meaningful? In this inspirational book, Daisy Wademan gathers lessons on balancing the personal

and professional responsibilities of leadership from faculty members of Harvard Business School. Offering a rare glimpse inside the classrooms in which many of the world's prominent leaders are trained, *Remember Who You Are* imparts lessons learned not in business, but in life. From the revelations on luck and obligation brought by a terrifying mountain accident to a widowed mother's lesson of respect for people rather than job titles, these unforgettable stories and reflections, shared by renowned contributors from Rosabeth Moss Kanter to former HBS Dean Kim Clark, remind us that great leadership is not only about the mind, but the heart.

This book will help you to remember who you truly are, and to be your true, authentic self, in its entirety, to unlock the beautiful spirit and essence of you. You

have a soul mission: it's time to wake up to it and fulfill your destiny and be everything you ever dreamed of being, your soul and spirit self really are, unafraid to shine in a world that all too often might seem might seek to undermine or limit you... You are filled with infinite possibilities and great gifts. Many of us are waking up from the illusion of fear, lower consciousness and vibration that we have been trapped in. Though times may be dark, the light can prevail and by holding on to our dreams and visions, we will emerge with a higher consciousness. We will shed all the restrictions of the past, and break the chains of the judgmental and fear-based systems which have ruled and limited our lives in so many ways, to take a jump and leap of faith and really be the full expression of our unique and special souls.
