Customized for the Salem Volcanoes(Minor League Team in Salem Oregon)This book gets rid of all the myths and misunderstandings of the baseball swing. For the first time in 120 years of baseball, we now fully understand the swing from a precise analytical perspective - - and here it is!There are two books: Book 1 (this book) is the stand-alone manual written specifically (in baseball language) for fans, ballplayers, and coaches of all levels, including Little League coaches and their dads. It carefully walks you through the swing telling you what is happening, how, and why. It's unlike anything you have ever seen in the baseball literature. You'll be amazed. For FANS, certain chapters are written specifically for you, so you (1) know what to watch for during a game; (2) how to classify batters into different styles; and (3) the final chapter describes the styles of different Home Run Kings from Babe Ruth to Barry Bonds. You'll learn lots and enjoy the game that much more. Book 2 is Technical Supplements, which are referenced in Book 1, with lots of graphs and tables - - based on our computer model which exactly matches the swing. Book 2 is for coaches, trainers, weight trainers, as well as teachers and students of the swing. Perfect for a college course!
