The way in which the contemporary exhibition is designed is fast changing - previously aloof cultural institutions are making use of technologies and techniques more commonly associated with film and retail. Exhibition Design features a wide variety of examples from around the world, from major trade and commerce fairs, to well-known fine art institutions, to small-scale artist-designed displays. An introduction gives a historical perspective on the development of exhibitions and museums. The first part of the book covers the conceptual themes of narrative space, performative space and simulated experience and the second the practical concerns of display, lighting, colour, sound and graphics. Throughout are photographs, drawings and diagrams of exhibitions, including the work of such internationally renowned architects and designers as Ralph Appelbaum Associates, Atelier Bruckner, Casson Mann, Frank Gehry, Zaha Hadid, Imagination, METStudio and Jean Nouvel.

A young Indian woman searches for her own identity as her country fights for independence in this novel from the award-winning Urdu Indian author. *The Crooked Line* is the story of Shamman, a spirited young woman who rebels against the traditional Indian life of purdah, or female seclusion, that she and her sisters are raised in. Shipped off to boarding school by her family, Shamman grows into a woman of education and independence just as India itself is fighting to throw off the shackles of colonialism. Shamman's search for her own path leads her into the fray of political unrest, where her passion for her country's independence becomes entangled with her passion for an Irish journalist. In this semi-autobiographical novel, Ismat Chughtai explores the complex relationships between women caught in a changing culture, and exposes the intellectual and emotional conflicts at the heart of India's battle for an uncertain future of independence from the British Raj and ultimately Partition.
