The SAP S/4HANA ERP system is built for the SAP HANA in-memory database. This market-leading columnar database enables a dramatically simplified data model and incredible speed. Run analytics and transactions on a single database without separating OLTP and OLAP. No more batch processing; Faster business processes and simplified IT landscapes

SAP S/4HANA | Intelligent ERP System | Cloud, On Premise ...

With SAP S/4HANA 2020 the news already start with the nomenclature of the release. Instead of using two digits for the release year and two digits for the release month (e.g. 1909 for the release in September 2019), the yearly release is now simply named by the release year: SAP S/4HANA 2020. But of course, SAP S/4HANA 2020 offers a lot more than a simplified naming approach.

SAP S/4HANA 2020 - Highlights in Seconds | SAP Blogs

Move from SAP ERP to SAP S/4HANA - our next-gen platform. Join the SAP S/4HANA Movement, a transition program that combines software, services, and tools for a smooth transition.

SAP S/4HANA Movement | Packaged Tools and Services
