In 1967, Canada celebrated the 100th anniversary of its founding with a spectacular party, and the whole world was invited. Montreal's Expo 67 was the first world's fair held in Canada, and it was a huge success, attracting over 50 million visitors. The 1,000-acre site was built on two man-made islands in the St. Lawrence River and incorporated 90 futuristic pavilions created by some of the world's greatest architects and designers. Over 60 countries were represented, along with many private, corporate and thematic pavilions, all brought together under the theme "Man and his World." With performers and entertainers of all varieties, restaurants, cultural attractions, exhibitions and a world-class amusement park, Expo 67 was literally the party of the century, exceeding all expectations.

"A First Course in Linear Algebra, originally by K. Kuttler, has been redesigned by the Lyryx editorial team as a first course for the general students who have an understanding of basic high school algebra and intend to be users of linear algebra methods in their profession, from business & economics to science students. All major topics of linear algebra are available in detail, as well as justifications of important results. In addition, connections to topics covered in advanced courses are introduced. The textbook is designed in a modular fashion to maximize flexibility and facilitate adaptation to a given course outline and student profile. Each chapter begins with a list of student learning outcomes, and examples and diagrams are given throughout the text to reinforce ideas and provide guidance on how to approach various problems. Suggested exercises are included at the end of each section, with selected answers at the end of the textbook."--BCampus website.

'As thrilling as a detective novel.' The Times 'Powerful, moving and often captivating.' Financial Times 'A compelling read for anyone who cares about fairness, justice and humanity.' Observer The Sunday Times bestseller ____ Sarah Langford is a barrister. Her job is to stand in court representing the mad and the bad, the vulnerable, the heartbroken and the hopeful. She must become their voice. Sarah weaves their story around the black and white of the law and tell it to the courtroom. These stories may not make headlines but they will change the lives of ordinary people in extraordinary ways. They are stories which, but for a twist of luck, might have been yours. With remarkable candour, Sarah describes eleven cases which reveal what goes on in our criminal and family courts: these are tales of domestic fall out, everyday burglary, sexual indiscretion, and children caught up in the law. They are sometimes shocking and they are often heart-stopping. She examines how she feels as she defends the person standing in the dock. She also shows us how our attitudes and actions can shape not only the outcome of a case, but the legal system itself. ____ What readers are saying: ***** 'Absolutely fascinating ... thought provoking, powerful and a compelling read.' ***** 'This book broke my heart at times but also contained humour and such poignant insights into the criminal justice system.' ***** 'Sarah writes incredibly well - she's informative while maintaining suspense and tension, and conveys so much emotion in her writing

"The first woman in the world to exceed 300 mph in a dragster"--Cover.

I'm not mad. I'm just from Derby.: A Fun Composition Book for a Native Derby, England UK Resident and Sports Fan Why use a boring black and white marbled composition book when you can write in one that shows your city pride and RFF (resting fan face)? This notebook features a snarky title showing your home town pride. Click on our brand to see other styles as well! 120 pages (60 sheets) Blank lined College ruled white colored paper Book dimensions: 7.5 in. x 9.25 in. (19.05 cm. x 23.5 cm.) Matte finish, soft cover Perfect composition book for taking notes, making lists, journaling, or a diary.

Engaging narrative and provocative content come together in this mind-stretching and heart-challenging journey. Come with Kelly Monroe Kullberg on an intellectual road trip as The Veritas Forum explores the deepest questions of the university world and the culture at large. Discover that Veritas transcends philosophy or religion and instead brings us to true life.

This book describes the complete panorama of supporting structures and their function by describing how loads are sustained and transmitted to the ground. With a minimum of mathematics, the reader is guided through the analysis of some of the world's most famous designs and structures from a civil-engineering perspective. An intuitive approach is taken - the basics of equilibrium analysis are explained by visualizing the internal forces of specific structures with the aid of simple graphical tools. Ideal for anyone who needs an intuitive and practical approach to the design and appropriate sizing of load-bearing structures.

From the #1 New York Times bestselling author-the first book in the reissued Three Sisters Island trilogy is a tale of friendship, fate, and the mysterious ways of the heart.
