Character Education in America's Blue Ribbon Schools is based upon descriptive, documentary, and qualitative research conducted on the award winning school applications in the United States Department of Education's Elementary School Recognition Program, i.e. the Blue Ribbon Schools. The purpose of the program is to focus national attention on schools that are doing an exceptional job with all of their students. Areas studied are developing a solid foundation of basic skills and knowledge of subject matter and fostering the development of character, values, and ethical judgement. The first edition of this book reported on the first decade of this program, from 1985 to 1994. The second edition adds the schools that have won the award from 1996-2001. Included are the Blue Ribbon schools that applied for Special Honors in Character Education and five that actually won that recognition in 1998-1999. This edition finds character education much stronger in American schools in recent years and is full of many promising practices. It is a practical book that will guide school administrators, teachers, parents, board members, and concerned citizens interested in starting or strengthening the character education focus of their school.

The national-bestselling biography on the country singer and songwriter known as "The Man in Black." In this, the definitive biography of an American legend, Robert Hilburn conveys the unvarnished truth about a musical superstar. Johnny Cash's extraordinary career stretched from his days at Sun Records with Elvis Presley and Jerry Lee Lewis to the remarkable creative last hurrah, at age 69, that resulted in the brave, moving "Hurt" video. As music critic for the Los Angeles Times, Hilburn knew Cash throughout his life: he was the only music journalist at the legendary Folsom Prison concert in 1968, and he interviewed both Cash and his wife June Carter just months before their deaths. Drawing upon a trove of never-before-seen material from the singer's inner circle, Hilburn creates an utterly compelling, deeply human portrait of a towering

figure in country music, a seminal influence in rock, and an icon of American popular culture. Hilburn's reporting shows the astonishing highs and deep lows that marked the journey of a man of great faith and humbling addiction who throughout his life strove to use his music to lift people's spirits. "Hilburn has written a brilliant story of an even more brilliant songwriter, warts and all." —Keith Richards "The ultimate Johnny Cash biography . . . Rock writer great Robert Hilburn goes deep." —Rolling Stone "Veteran music writer Hilburn . . . masterfully separates fiction from fact in an exhaustive, but never exhausting, biography of the legendary musician...The personal knowledge aided by extensive archival research and always compelling, accessible writing makes this an instant-classic music biography with something to offer all generations of listeners." —Kirkus Reviews (starred review)

Proposing Empirical Research: A Guide to the Fundamentals provides step-by-step instructions for students who will be writing their first research proposal in the social and behavioral sciences and using both quantitative and qualitative methods. The structure of the book enables students to work independently with confidence while writing the first drafts of their proposals. Each major section is divided into short topics and for each topic, students are asked to complete an exercise that leads them toward the goal of preparing a proposal. Numerous illustrative examples throughout the book make the recommendations for proposal writing come alive. In addition, the 10 model proposals provided at the end of the book illustrate proposal writing and provide material for classroom discussions. New to the Sixth Edition: Updates throughout to reflect research and learning in the digital/online environment, e.g., online surveys, digital organization tools, digital recruitment methods for research, and digital databases, records, and archives. Discussion of qualitative methods. Updated references, model proposals, end of chapter exercises etc. Proposing Empirical Research is ideal for use in research methods classes where students write a proposal as a term project, thesis/dissertation preparation classes, senior research seminars where proposing and conducting research is a culminating undergraduate activity, and any graduate-level seminar in which the instructor wants to incorporate a project that will engage students in critical thinking about the content area.

In late December of 1941, two parachutists dropped into occupied Europe on a mission to assassinate Reinhard Heydrich, an SS leader whom one contemporary called "the hidden pivot" of Nazi Germany. Six months later, they succeeded. This is the definitive telling of this oft-forgotten story—its fascinating background, its thrilling climax, and its tragic consequences.

In *The Argentine Silent Majority*, Sebastián Carassai focuses on middle-class culture and politics in Argentina from the end of the 1960s. By considering the memories and ideologies of middle-class Argentines who did not get involved in political struggles, he expands thinking about the era to the larger society that activists and direct victims of state terror were part of and claimed to represent. Carassai conducted interviews with 200 people, mostly middle-class non-activists, but also journalists, politicians, scholars, and artists who were politically active during the 1970s. To account for local differences, he interviewed people from three sites: Buenos Aires; Tucumán, a provincial capital rocked by political turbulence; and Correa, a small town which did not experience great upheaval. He showed the middle-class non-activists a documentary featuring images and audio of popular culture and events from the 1970s. In the end Carassai concludes that, during the years of *la violencia*, members of the middle-class silent majority at times found themselves in agreement with radical sectors as they too opposed military authoritarianism but they never embraced a revolutionary program such as that put forward by the guerrilla groups or the most militant sectors of the labor movement.

CMJ New Music Report is the primary source for exclusive charts of non-commercial and college radio airplay and independent and trend-forward retail sales. CMJ's trade publication, compiles playlists for college and non-commercial stations; often a prelude to larger success.
