Vintage Smiths Manual Wind Sports Watch. Condition is "Used". The watch measures 3.5cm x 4 cm and the strap measures 23 cm including the watch. The case is stainless steel backed, with a brushed gun metal finish to the front. The watch back states that the watch is waterproof, and anti-magnetic. The watch is working but being 50-60 years old I cannot vouch for the accuracy.

Smiths did market two major innovations in hand-wound clocks: The Floating Balance movement. In 1956 Smiths offered clocks with the new "floating balance" movement invented by Hettich in Germany and licensed to Smiths. In 1960 Smiths marketed a smaller version, built to their own design, which had an improved method of regulation allowing precise adjustment. Recognition of Smiths floating ...

Smiths movements - Electric clock

Smiths Classic Gauges Smiths have manufactured gauges for British cars for many years and we supply these genuine Smiths Classic gauges. Mechanical Speedometers are normally set at 1000 revs/mile for MPH and 620 revs/km for km/hour. It is likely you will need to re-calibrate your Smiths Classic speedometer.
