listening and communication. caring. judgement. teaching and advising. counselling. managing. Communication and interpersonal skills are also very important, as you will need to reassure or advise patients and their relatives or carers – sometimes in situations that they may find difficult to cope with.

Personal characteristics and skills required (adult nursing)

Key points about study skills: You will develop your own personal approach to study and learning in a way that meets your own individual needs. As you develop your study skills you will discover what works for you, and what doesn't. Study skills are not subject specific - they are generic and can be used when studying any area. You will, of course, need to understand the concepts, theories and ideas surrounding your specific subject area.
