Action learning is established in both higher education and in professional learning and training situations. First published in 1995, this is a guide to using action learning techniques successfully. Written by two leading figures in the field, this revised edition retains the same practical guidebook approach to how action learning works.

Action learning is not management or skills training or an education based programme. Each individual is supported, challenged and encouraged to take action on their organisational problems and learn from this. The reflection and review within the group enables learning to happen and effective action to be taken. Reg Revans who invented action learning wrote "There is no learning without action and no (sober
